SWITCHMEN ARE
RETURNING TO
CHICAGO YARDSBrotherhood Officials Are
Encouraged By Indica-
tion of Break in RanksSITUATION SHOWS MUCH
IMPROVEMENT ON FRIDAYCongestion In Yards Stops
Many Passenger Trains
In Chicago Suburbs.

Chicago, April 9.—Switchmen who have been on strike here for nine days began returning to work this morning. Brotherhood officials, who have been fighting the "illegal" walkout of their men, do not claim that the strike is broken but were encouraged by reports from several roads that the men, in small groups were reporting for work.

The Chicago Junction Railway, the belt line connecting the stock yards and packing plants with the trunk lines, was one of the first to report. Eleven engine crews were at work this morning, the report said, as compared with three yesterday.

While the switching and freight situation showed improvement, the congestion in the yards grew so great that seven of the eight railroads entering the Dearborn street station are unable to run passenger trains downtown. They are discharging passengers at suburban stations to complete the trip on elevated or surface cars.

Only the Santa Fe was running into the station this morning. The other roads, which normally use that depot, are the Monon, Erie, Grand Trunk, Chicago and Eastern, Illinois, Wabash, Chesapeake and Ohio and Chicago and Western Indiana.

Chairmen of the brotherhoods announced there had been an improvement in the Chicago district and that the men were slowly returning to work. They asserted that freight traffic was 50 percent normal.

On the other hand leaders of the revolving yard men's union declared the strike was growing and that the men would continue to remain out of the parent union ignoring notices from the Brotherhood of Railroad Trainmen threatening expulsion unless contracts were respected.

One thousand brotherhood men from other cities had answered the call for strike-breakers here, officials said. Between 40,000 and 50,000 packing house and stock yards workers had been thrown out of employment today as the result of stoppage of cattle shipments, packers announced. Many industrial plants reported thousands of employees would be thrown out of work if the freight tie-up continued another week. In the St. Louis district, including East St. Louis and Madison, Ill., freight traffic was reported virtually at a standstill with yard men of 27 roads on strike.

Railroads in Kansas City, Mo., operating under contracts with the Brotherhood of Railway Trainmen were affected and the strike has spread to Kansas City, Kansas, and Rosedale, an industrial suburb.

Points throughout the southwest reported embargoes had been placed on freight and cattle shipments to St. Louis. Kansas City and Chicago and freight traffic between New Orleans and Chicago on all lines was suspended.

Rail centers throughout California felt the freight restrictions and eastward along the trans-continental lines several terminals reported strikes. Starting at Los Angeles where approximately 1400 yardmen walked out yesterday the strike spread to yards in San Francisco and Oakland and other California cities. The Southern Pacific estimated that 1800 men were on strike on lines in its coast division.

Unionized rail workers at Louisville at a meeting voted almost unanimously against striking in sympathy with the Chicago insurgents' brotherhood officials reported.

Attempts to form "rump" unions in several other cities were in progress today and votes were expected to be taken.

A summary of conditions throughout the country, reported early today follows:

Chicago: 8,000 men on strike; freight traffic estimated at 50 percent normal. Toledo: 4,000 employees of 23 roads idle.

St. Louis district: 2,000 men out and freight traffic virtually tied up. Buffalo: 2,000 men idle.

Jersey City: 2,000 yardmen and other workers out.

Los Angeles: 1400 on strike. Detroit: 1200 to 1400 idle. San Francisco: 400 men out.

Kansas City: 400 men on strike. Gary: 350 idle.

Syracuse: 250 men out. Saginaw: 200 men on Pere Marquette out.

Salt Lake City: 215 men on strike. Ogden: 150 men on strike. Joliet, Ill.: 107 men on strike. Joliet, Ill.: 50 out on four roads. Scranton: 50 men idle.

Springfield, Ill.: Baltimore and Ohio switchmen on strike.

DEPARTMENT AIDE
OF LANSING JOINS
HIM IN BUSINESS

Lester H. Woolsey.

Lester H. Woolsey, former solicitor of the department of state, has resigned to engage in the practice of law and international matters with Robert Lansing, former secretary of state. Woolsey had important government duties during the war, especially in framing diplomatic correspondence. He had the distinction of handing Count von Bernstorff his passports. He also was a delegate on technical matters to the peace conference.

day four passenger trains were wrecked. The next day seven freight trains were wrecked. Then we sent word to the railroads that if they did not come across we would tear down the roundhouse. They did not answer. We did. The roundhouse was torn down.

"Then the railroads begged for mercy and asked to meet us. We told them to come to us. There was a meeting. The union drew up a contract and the railroad refused it. The next day we blew up a bridge. That night an ice jam formed in the river and tore down the rest of the bridge so they don't know to this day who did the job. But we won the strike.

I did 80 days in jail for blocking the mails and got out light because I told the judge I did not know the law. But of course I knew it then as well as I do now."

STRIKE MAY CLOSE
YOUNGSTOWN MILLS

Youngstown, April 9.—Unauthorized strikes of employees will tie up yards of five railroads in the Mahoning valley district by three o'clock this afternoon, officials said today, affecting 2500 to 3000 railway men. Steel mill officials said that 24 hours of the strike would close the mills, throwing 35,000 men out of employment.

The Baltimore and Ohio reported 30 cars on strike, the Erie 40 crews with the strike spreading, and the New York Central 32 crews. Day crews on the Pennsylvania appeared for work, but later left their engines, officials said.

The Pittsburgh and Lake Erie reported that pay day is holding the men temporarily but that they are "restless."

The strike at Conway has already crippled the steel mills' coal supply and the fuel situation alone will close the plants in a day aside from the congestion caused by lack of switching facilities, company officials said.

NEW YORK STRIKE MAY
BRING FOOD SHORTAGE

New York, April 9.—New York City, affected by strikes of railroad marine workers, switchmen and freight yard employees, is threatened with serious food shortage according to a statement today by J. J. Mantell, head of the railroad managers organization. He added that during the night "sixty-five cars of food were moved into the city to protect the infants."

"Big" Jim Murphy of Buffalo and Clarence Gess, a local policeman, heavyweights, will also box.

Lyle Harvey of Ashtabula will meet Young Caddock of Erie in a wrestling contest.

TOLEDO PUTS EMBARGO
ON ALL SHIPMENTS

Toledo, April 9.—Because of the strike here of insurgent railroad workers, the managements of nine roads entering the city today announced embargoes on freight shipments. It was announced that the movement of any considerable volume of freight is impossible.

NEARLY MILLION MEN TO
PUSH WAGE DEMANDS

Chicago, April 9.—Wage demands of five groups of railroad employees numbering 950,000 will be pushed immediately as the result of the spread of unauthorized strikes of switchmen and engineers. G. A. Worrell, general chairman of the railway clerks' organization of the Chicago and Northwestern systems said today that the movement of any considerable volume of freight is impossible.

The men are at the end of the rope," said Worrell. "President Wilson proposed a 20 percent increase in the pay scale and a 15 days of grace granted for compliance of the companies he said.

"They call me a rebel," Edy told the strikers. "I'm proud to be a rebel. In 1919 I had charge of a railroad strike in Pennsylvania and I was in jail. The men all went out and stayed out."

"I went down to the I. W. W. headquarters and got some help. Then one

ALLIED MUDDLEState Department Commu-
nicated With Italy and
London on Subject.ADMITS SITUATION IS SERIOUS
AS RESULT OF FRENCH ACTIONBelieve French Will With-
draw When Germans
Leave Neutral Zone.

Washington, April 9.—America's attitude towards and adjustment of the new situation created by the entry of French troops into the Ruhr district of Germany, will continue to be more than of an observer than an interested participant, from which it can be learned in official circles here. It is known the state department was in communication with London and Italy as well as France up to the time the French army moved forward from the Mayence bridgehead and there had been no indication here of any change in the position taken more than a week ago when the state department announced this government knew no reason why German troops should not be sent into the troubled district if it were clearly understood they would be withdrawn once order was restored.

While recognizing the seriousness of the situation created by the independent action by France, officials here were not inclined to regard it as "delicate" as the British foreign office indicated last night. It was regarded as one of those situations full of potential danger but in which the probabilities of adjustment was predominant.

All reports have indicated Germany's unwillingness to contest the force of French arms, and it was pointed out, there is no reason to assume France will not adhere to her assurances that German troops will be withdrawn once the eastern boundary of the neutral zone.

POLICE SEIZE DRUG
IN RAID IN TOLEDO

Toledo, April 9.—In a drug raid in which morphine and opium worth \$30,000 were seized here last night, city detectives arrested a woman and four men. Detroit and Cleveland authorities have been notified to look for other persons believed to be connected with a ring of drug vendors.

Those arrested are Mary Costello, Walter Grish, H. E. Bane of Cleveland, Frank Tyson of Detroit and J. B. Ladd of Cleveland. They are accused of smuggling drugs from Canada.

LANCASTER ADDS
1600 POPULATION

Washington, April 9.—Population statistics announced by the census bureau today included:

Poultney, Maine, 69,196, increase of 10,425 or 18.1 per cent.

Biddeford, Maine, 18,008, increase of 929 or 4.1 per cent.

Quincy, Mass., 47,611, increase of 14,969 or 45.9 per cent.

Lancaster, Ohio, 14,706, increase of 1,613 or 12.3 per cent.

HATCHER AND WHITE
MATCHED FOR BOUT

Ashtabula, April 9.—Charles "Happy" Hatcher of Ashtabula Harbor, and Ted White of Buffalo, lightweights, are matched for a 18-round no-decision go as the main feature of an athletic carnival being given tonight by the Sovinto Athletic club here.

"Big" Jim Murphy of Buffalo and Clarence Gess, a local policeman, heavyweights, will also box.

Lyle Harvey of Ashtabula will meet Young Caddock of Erie in a wrestling contest.

POULTRY MUST BE
LISTED FOR TAX

County Auditor Prepares
For Annual Tax Return—
Gives Some Informa-
tion About What Must Be
Listed.

County Auditor Fred S. Wilson is busy these days over personal tax returns which will begin coming into his office from April 12 to May 1 this year. The returns are for the period between April 14, 1919, to April 11, 1920. Any personal property, money or otherwise converted into non-taxable property is taxed for the period of time it was held prior to investment.

Poultry, as a rule, has never been taxed before, but this year it must be returned for taxation. The schedule of valuations is chickens, ducks and geese, \$1 each, turkeys \$3 each.

The law requires that property owners contemplating building or improving in the amount of \$200 or over, shall within 60 days of beginning such improvement, file with the county auditor notice of said improvement, and in default of said notice the auditor shall add 50 per cent to the value thereof for taxation. This applies to property situated outside of the city of Newark.

Automobiles are to be returned at their true value in money. Some values were raised.

Before swearing to the return the property owner must be sure that it is correct, as swearing to an incorrect return is perjury, under the law.

All persons and firms engaged in manufacturing, wholesaling or retailing must submit a balance sheet with their returns this year whether they are incorporated or not. Bills payable can be deducted from bills receivable but not from any other assets.

The rate of tax allowed by law and the public necessity for funds to conduct our schools, cities, towns, streets, roads, upkeep of poor, upkeep of state institutions, elections and the many other activities of the state too numerous to mention, demands that a full and complete return be made by all.

The assessors for Newark city are: John Cresswell, first ward; S. W. Warner, second ward; C. A. Parr, third ward; John Zimmerly, fourth ward; O. C. Larason, fifth ward, and Charles Hindle, sixth ward.

Pittsburg, Kansas, April 9.—Alexander Howat, president of the Kansas coal miners, was sentenced to jail for contempt of court by Judge Andrew J. Curran of the Crawford county district court today.

REPUBLICANS IN
HOUSE WILL PUT
OVER PEACE PLANDemocrats Admit Opposi-
tion Has Enough Votes
To Carry ProgramACTION WILL REPEAL ALL
WAR-TIME LEGISLATIONFormer Speaker of House
Predicts Confusion Will
Follow Peace.

Washington, April 9.—When the House resumed debate today on the Republican peace resolution, Representative Flood of Virginia, ranking Democratic member of the foreign affairs committee, announced that the motion to recommit allowed under the rule adopted yesterday would propose a straight-out repeal of all war legislation. The motion will direct the foreign affairs committee, he said, to report out a resolution repealing the war-time acts. Republican leaders said the motion would be defeated and the resolution adopted soon after debate closed, automatically at 5 o'clock. Democratic leaders conceded that the Republicans had the votes to carry out their program.

The six hours debate today was opened with Representative Clark of Missouri, the Democratic leader and former speaker, opposing the measure, and Representative Madden, Republican, Illinois, speaking in its support.

Mr. Madden opposed the view that the measure would be an invasion of the constitutional power of the president. He said that since the president had "refused to compromise" on the peace treaty it was time for "the voice of the people to be heard," adding that the treaty presumes to express their voice.

Representative Clark declared that title given the resolution was a "palpable misnomer;" that the measure would bring confusion "twice confounded" and that it would lead to "all sorts of international quagmires."

CHARGE CASHIER MADE
FALSE BOOK ENTRIES

Struthers, Ohio, April 9.—Consent with the report of Ira R. Pontius, state superintendent of banks that the Struthers Savings and Banking company suspended last week by examiners, must be permanently closed.

Bruce R. Campbell, secretary-treasurer of the bank, was arrested today on three charges of law violations.

Mr. Pontius report said that \$225,000 of the bank's funds are missing and that \$300,000 worth of securities on which loans were made may prove valueless.

The charges against Mr. Campbell, who turned over his personal property to the bank at the time of its suspension, are misappropriation of bank funds, making false reports and making false entries. Resolutions passed by Youngstown banks urge a determined prosecution of Campbell, who is declared solely responsible for the bank's failure.

WILL SUBMIT PLANS FOR
BRIDGE TO T. & O. C.

The county commissioners and County Surveyor Irwin were in Granville yesterday with Division Engineer R. D. Davis looking over the ground and considering the possibility of doing away with the crossing and bridge just out of Granville on the Columbus road. The commissioners decided to draw up plans for an overhead bridge at this point and estimates of the cost will be submitted to the T. & O. C. railroad.

The location decided on is a little way down stream from the present bridge where a new concrete bridge and an overhead roadway will be planned.

First Church Pays Off Last
Mortgage on Edifice—
Women Raise More Than
\$3300 In Last Year.

A large congregational meeting was held at the First Presbyterian church last night. It was the annual meeting and the year's reports were most gratifying.

That which created the highest enthusiasm was when building fund treasurer, H. H. Leist, waved before the congregation the cancelled mortgage, showing that the entire mortgaged indebtedness of the church had been cancelled and the church is now entirely free of debt. The congregation arose and sang the doxology and joined in prayer, led by the pastor.

W. A. Pratt, treasurer of the debt-raising committee, reported that \$8211 had been paid in on subscriptions since the first of last September. The Ladies Aid had contributed \$3,500.

The congregation contributed for the church benevolent boards approximately \$4000 during the year, while the congregational expenses totaled in excess of \$6000. Altogether the congregation had contributed to all church causes more than \$50,000 during the year. It has been a year of unparalleled financial prosperity for the church.

The spiritual condition of the church has also shown fine progress. There were 59 additions to the membership and 34 baptisms. The membership of the church is now to consist of 750.

The church building is to be immediately repaired and redecorated and a committee was appointed to arrange for a great jubilee and re-dedication service. The congregation has just completed the purchase of one of the finest properties in the city for a manse at 191 West Church street. The pastor's family expects to move into the new home this month.

COURT WILL RECEIVE
BRIEFS OF COUNSEL

The court heard the evidence in the case of the Licking Aerie of Eagles versus Fred S. Wilson, county auditor, of the Plaintiff's suit to restrain the collection of taxes levied upon its property on East Main street, this city. Plaintiff claims that the property is not subject to the payment of taxes on the ground that it is exclusively a benevolent organization and is exempt under the constitution of Ohio.

The arguments of counsel will be made in the form of written briefs, and the court will then pass upon the question.

English Attitude Toward

Starts Something.

GERMAN REGULAR TROOPS
WITHDRAW ACROSS RIVER

Dusseldorf Requests Berlin
to Keep Regulars Out of
That City.

London, April 9.—Italy's attitude respecting the French occupation of Frankfurt concurs fully with that expressed in behalf of Great Britain in the statement issued last evening, Vittorio Scialoja, the Italian foreign minister, stated today.

Paris, April 9.—The British attitude regarding the French occupation of Frankfurt will cause the opening of a diplomatic conversation between the powers of the entente concerning that whole subject of action with regard to Germany, it was said today in official circles.

Berlin, April 9.—The German regular troops which had crossed the river Ruhr were withdrawn yesterday to the northern bank of that stream it is announced here. (The Ruhr passes just to the south of Essen in the northern central part of the industrial district.)

The burgomasters of the cities of Barmen and Elberfeld, it is stated, requested the minister of defense not to allow the troops to enter those towns.

Great excitement prevails in Dusseldorf in view of the threatened entry of the regulars.

The majority socialist newspaper Vorwaerts has advised from Dusseldorf which declares that a general strike is impending in which all parties will unite. The town council has sent a petition to the minister of defense asking that the regular troops be kept out of Dusseldorf. Their entry would be inexpedient, the petition declares.

The number of persons who have crossed the line from the Ruhr region into occupied territory is in excess of a thousand, according to the British authorities. Several Berlin newspapers print the report that the American member of the inter-allied Rhineland commission informed the president of the commission that he refused to participate in any "negotiations" of the commission favoring the advance of the French into occupied Germany.

The Vossische Zeitung says that entente envoys already have arrived in the industrial region to supervise the evacuation of the neutral zone.

FRENCH SAY SHOOTING
WAS NOT INTENTIONAL

Frankfurt, April 8.—Assertion there had been no firing of machine guns into a crowd here Wednesday and that the incident was really a mishap, is made by a French officer who witnessed it. Fear on the part of a French soldier that the crowd intended to rush the patrol in the street led to the tragedy. This man's statement, said a belt of cartridges into the gun for the purpose of firing one shot to disperse the crowd. The explosion of the gun, however caused the soldier in charge of it to lose his head and the whole belt was fired. It was explained by the officer that every care had been taken to prevent a repetition of the "accident."

Inspection of the 26 machine guns brought to Frankfurt by French troops has been made and it is said none of them fired automatically, showing a tendency to fire upon the insertion of the cartridge belt. All of them were used during the war. Accounts of the incident have stated the safety catch of a gun was defective and that it began to fire automatically as soon as the belt was placed in position. Twenty of those who were hit by the fullness were only slightly wounded and were able to walk to their homes.

Two new French proclamations appeared here today, one denying yesterday's rumor that the troops would be withdrawn and the other forbidding the people to jeer and agitate against the troops and instructing the citizens to obey all French military orders.

Blame for Wednesday's tragedy is placed on German students who, the French who declare they tried to stir up the people. The ban on the publication of newspapers was removed today and several printed editions. Papers will not be subject to censorship.

An additional force of French troops was being brought into the Frankfurt district today, but General Demetz, the commanding officer here, informed the Associated Press that there would be no further extension of the occupied zone at this time.

People of Frankfurt who arose early this morning greeted by a poster signed by the municipal authorities warning the population not to congregate in the streets nor to say anything which would lead to friction with the French troops.

A proclamation was posted by the French military authorities promising a searching and thorough investigation of yesterday's tragedy.

The number of fatalities from the Schillerplatz shooting has reached a total of seven. Two persons were killed outright and five others later died of their wounds.

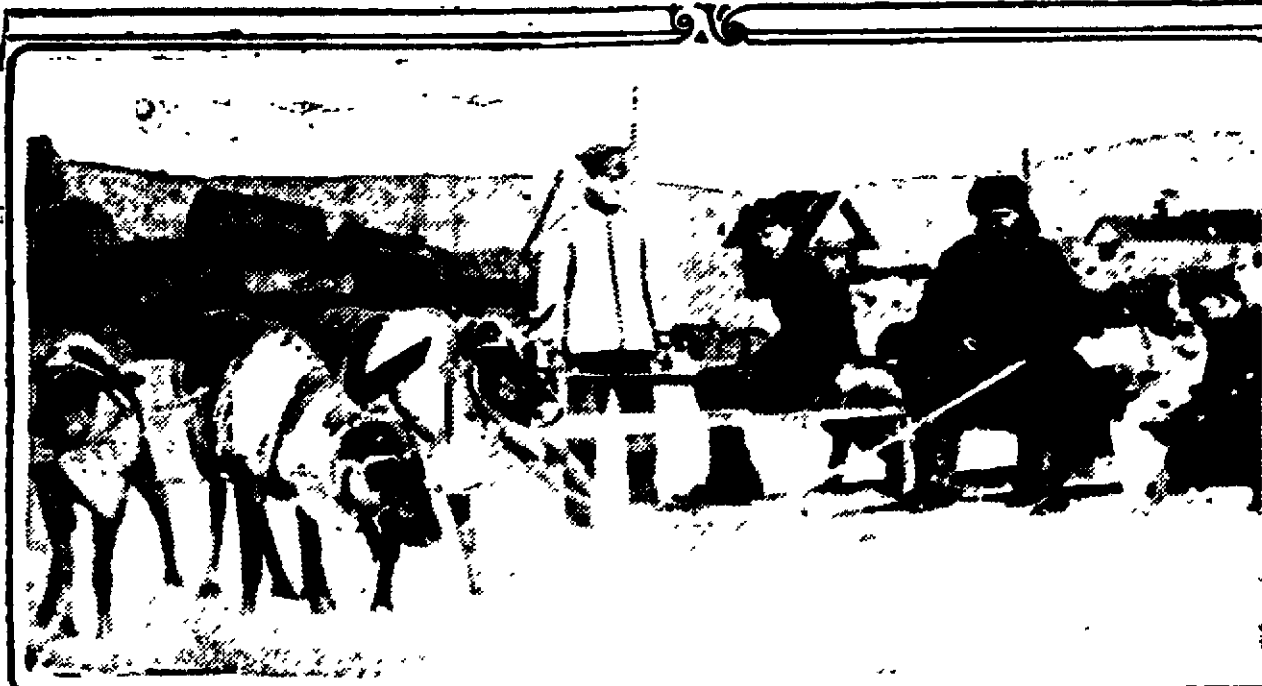

No further disturbances were reported anywhere in the occupied region and the tension which resulted from the Schillerplatz incident had markedly relaxed, although the populace was still extremely nervous.

WATER MAIN BURSTS.

Chicago, April 9.—A two story brick garage was wrecked and a score of houses flooded and undermined this morning in the east end section by the breaking of a large water main. The damage was estimated at \$100,000.

NEW SCHOOL GARDEN SUPERVISOR WILL SEEK GREATER EFFICIENCY

Paul B. Edwards Outlines Plans For School Garden Work—Advanced Courses Provided For Pupils With Year's Course In Truck Gardening.

"My plan for this year is to secure greater efficiency in the school gardening," said Paul B. Edwards, new garden supervisor for the Newark Public schools, this morning.

"Last year there were about 900 or 1,000 students enrolled when the gardening season started, and from this number only five hundred stuck through to profit by their month's work. This year I am going to limit the registration to about 500, and expect as a result greater efficiency in the gardening."

Mr. Edwards, a graduate of the school of agriculture of Ohio State University, takes charge of the school gardening this year, succeeding Frank H. Smith. Mr. Edwards plans for the coming summer are much the same as those employed by Mr. Smith. The gardening will be conducted on individual plots, some belonging to the public schools, and some in home gardens. The beginners' course in gardening is open to any student of the grade or high schools, but the advanced courses are for those students who have had at least a year's course in truck gardening.

The gardening is conducted on a competitive basis, the students who have the best gardens at a certain specified time during the season being awarded prizes. Last year, \$150 in prize money was given away to the students and it is Mr. Edwards' plan to offer the same

proposition this year. In addition to the prize money, other awards come in the form of the gardening experience worth while if for no other reason than helping to pay the high cost of living. A certificate is given each member who completes the course, and from one-fourth to one-half credits are given high school students if they finish their garden.

All the gardens, those on home plots as well as those provided by the school, are to be under the personal supervision of Mr. Edwards. The young gardeners meet with him twice every week to talk over their problems, and then with Mr. Edwards to direct, they go out perhaps to try to make their plot yield just twice as many beans or peas, or whatever it is that the student has selected to grow. The plots last year for the beginners in the course were 10 by 25 feet in dimension, and Mr. Edwards plans to have the same sized plots this year. Those who are taking the advanced course work on a plot 10 by 35 feet.

Mr. Edwards is anticipating that there will be a rush of applicants for the new courses, for judging from last year's showing, the individual truck gardens are a paying proposition. From this plot, containing only 250 square feet, vegetables were marketed that brought in all the way from \$2 to \$10. With this money as clear profit, the chance of winning some of the prize money offered by the agricultural department, and a diploma or credits given in connection with academic

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N.Y., for a sample bottle. When writing be sure and mention this paper.

work, it seems natural to suppose that Mr. Edwards is going to have a lot of difficulty in cutting down his applications to but 500.

The rules governing the course in gardening as outlined by Mr. Edwards are as follows:

1. No gardens are to be exchanged or sold by pupils without the consent of the director.

2. Garden record sheets must be carefully kept and returned to director before credit is given.

3. Every gardener must meet the director once each week on his respective plot.

4. A garden exhibit will be held toward the end of the season at which prizes will be given.

5. An inspection of the school gardens will be made monthly.

6. No pupil will be recognized in awarding prizes, diplomas or credits who is not regularly enrolled with the garden director and whose work is not inspected by him. Neglected gardens will be given to other pupils.

NO LONGER REFLECTS SOUND

Defect Which Made Supreme Court-room "Whispering Gallery" Has Been Remedied.

According to the Washington Star, the "whispering gallery" of the United States Supreme court has been eliminated. It was Chief Justice White who called it a "whispering gallery." In a letter to Elliott Woods, superintendent of the capitol he said:

"The situation is at times almost unbearable, a result which will be readily appreciated when it is understood that from one end of the rostrum to the other there exists what may be described as a whispering gallery, by which speech in the most modulated tone is magnified and carried from one end of the bench to the other, so that a statement by one judge at one end to his neighbor is magnified and spoken into the ear of a member of the court at the other end."

The acoustic properties of the Supreme courtroom have been very bad since 1902, when the roof of the central portion of the capitol was fireproofed and the ceilings of the statutory hall and the present Supreme courtroom were fireproofed. The character of the material used made the surface sound-reflecting. The Supreme court has had a great deal of trouble from that time with the reflection of sound from the spherical ceiling. This defect has now been remedied at a cost of \$10,000.

LOOKED LIKE SURE TROUBLE

Little Wonder Courtroom Was in Panic Over Colored Woman's Spectacular Appearance.

During a trial of a colored man in the criminal court recently on a charge of murder, there was considerable nervous tension in the courtroom, the result of remarks that had been made that some one was "going to start something," regardless of the outcome of the case. The courtroom was crowded to capacity, and several police officers were stationed about the room.

At an impressive moment, while the defendant was on the witness stand, a commotion was heard at one of the courtroom doors. Into the midst of the nervous spectators walked a large colored woman who carried in one hand a formidable-looking rifle. Policemen and detectives seized her and rushed her into an outside room, where they began examining the weapon. It was not loaded. She explained that she had been in juvenile court in a case in which the rifle had been used as evidence.

Before going home, she said, she decided to hear some of the evidence in the murder case. She and her rifle were sent out of the building, and the murder trial was resumed.—Indianapolis News.

Power from Volcanic Steam.

In 1905 Prince Ginori Conti, general director of the Larderello works at Larderello, Italy, decided to experiment with the natural steam springs of Larderello for obtaining motive power. His experiments were so successful that the company built a large power station at Larderello with three units of 2,500 kilowatts each. The work, says The Illustrated London News, was begun in 1914, but was delayed by the European war. The first unit was started in 1916, and the power station was completed in the same year. Four overhead lines at 36,000 volts carry electric current to Siena, Leghorn, Plovia and Massa. The holes bored to the natural steam pockets, which vary in depth from 198 feet to 495 feet, are lined with iron tubing sixteen inches in diameter. The steam is cleared of gas before it is carried to the turbine generators.

Clemenceau and Heaven.

The latest Clemenceau anecdote that is going the rounds of the boulevard is to the effect that the premier was annoyed because a tree in the neighboring garden overshadowed his. The tree was the property of some Jesuit fathers, on whom M. Clemenceau called, politely explaining that his attitude to the church was unchanged, but he would regard it as a personal favor if the Jesuit fathers would cut down the tree, "because it prevents me from seeing the heavens." The Jesuit father who received him was very courteous and was much flattered by the premier's call. He promised that the offending tree should be speedily removed, but he added, with the suave smile of the ecclesiastic: "I am afraid, M. le Premier, that, just the same, you will not see heaven."—London Morning Post.

His "College."

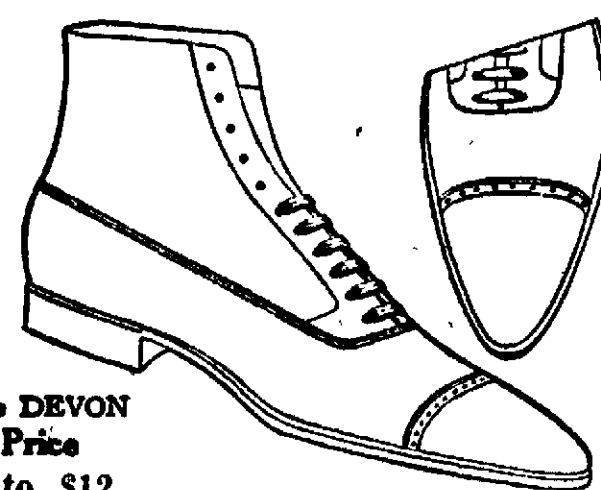

During debate in the New York state assembly one day, when Gov. Smith was a member of that body, another member arose to a question of personal privilege and announced that Cornell had won the boat race at Toughkeepsie, adding that he was a graduate of Cornell. This started a reminiscence meeting, other members arising to tell the name of their alma mater. Smith finally rose and announced:

"I am a graduate of the F. F. M." "What college is that?" "Tuition Free Market"—World's Work.

Some men like a shoe whose toe lies flat upon the ground. Some like a toe with a little spring to it; that is, a toe rising slightly above ground. We can show you many models of both types. Look at the long, flat, aristocratic-looking toe of this shoe. A Walk-Over—very popular at the price. Back of its handsome lines are quality and craftsmanship—45 years of it—at good bootmaking.

Avoiding Freckles.
It is far easier to avoid having freckles come than to drive them away after the sun and wind have settled them on your face and neck. There are many simple home remedies that will help one to avoid these summer beauty destroyers. Those who tan and freckle very easily should bathe in very hot water and then apply both cold cream and powder before they go out. Brown voils are better to wear as a protection than any other color. A white veil really provides no protection at all. When the face is hot and burning bathe it in witch hazel and apply a lotion made of equal parts of lemon juice, glycerine and rose water. After that massage and a little cold cream will complete the cure.

Two simple remedies for freckles are washing the face and hands in butter-milk every day. Or you can use a horse radish lotion. This latter lotion is made by scraping a teaspoon of horse radish into a cup of sour milk and letting it stand for six hours. Apply this two or three times a day and never fail to massage in a little cold cream after using any lotion.

In cases of a very tender skin wash the face in as hot water as can be borne before going to bed. After this spread over the face a layer of the following: pomade. Oxide of zinc, 10 drams; talcum, 10 drams; powdered soap, 60 drams; inulin, 8 drams; tincture of benzoin, 10 drams; distilled water, 92 drams and glycerine 10 drams. In the morning wash the face again with very hot water and dust over a little powder.

The hands can always be protected with a thin glove and white silk and cotton gloves are worn generally by well-dressed women. Do not think because the sun is not shining brightly that you will not get freckled.

DEFECT OF GOVERNMENT.

In the business world action in vital matters is always prompt. Hesitation often creates greater perils than positive errors. When business men have a big question to settle, they give their earnest thought to it, do the best they can, and go ahead. And they come out better than if they dithered and doubted.

But government action does not have this capacity for clear cut action. There are long delays, dodging of responsibility, and political jockeying.

The harm done can be seen in such a matter as the peace treaty and League of Nations. The country wanted prompt action either one way or the other. But now the matter has apparently gone over until after election, perhaps until a new president comes in.

Thereby the world's unsettlement is prolonged, economic readjustment is delayed, and the United States is held up to contempt for its vacillating policy. Also it is failing to do its share in settling the world, and thereby appears in the light of a slacker.

The delay may promote some terrible catastrophe. The lack of a settled policy may result in Bolshevik revolutions in several countries. It will encourage Germany in the idea that the allies are disunited. She will be incited to block the peace settlements.

The fundamental difficulty is the requirement of a two-thirds vote for ratification of a treaty. This has always made it difficult to get treaties ratified, and many very necessary and beneficial ones have failed on this account. This is a country of majority rule. A two-thirds vote enables the minority to rule the majority. This is contrary to the American theory of government, and should be modified to permit the majority to rule.

Complained that the president is opposing everything Congress wants and Congress is opposing everything the president wants, but any way they are passing out the usual number of jobs.

Now that the girls are serving as bank clerks in many places, the boss may feel it necessary to take his checks to the bank himself, instead of sending one of his assistants.

No opposition to advancing railroad freight rates is reported from the people who expect to get a dollar more for commodities because freight has gone up 10 cents.

United States senators must be popular, as a lot of their constituents affectionately demand their presence in their home towns during the coming term.

The presidential candidates will soon be stopping their automobiles for a speech at every cross roads where they can assemble two voters, a boy and a dog.

So far none of the women of Newark has favored the proposition that telephone charges should be based on the length of the conversation.

Government clothing now pretty well sold out, but a lot more of the type worn in federal jails is going to be needed by the profiteers.

"Rest rooms" now provided in many places, but a lot of people consider the place where they are employed was created for that purpose.

Women who carry money in their stockings won't find it a place of concealment much longer.

Intelligent bridegrooms are anxiously asking what these "adorable" spring gowns cost.

SPIRIT OF EMULATION.

Old time workers used to take a lot of pride in their ability to turn out a good output. Farm laborers would brag about the amount they could mow in a day. The man who could not keep up with the others in hoeing a field of corn, was looked down upon in his gang. Shop workers used to brag about the day's work they could turn out, and make conspicuous records of the same on the walls of their workshops.

Of late there has seemed but little of this spirit. Business men complain bitterly that it is hard to get people to work with any energy. Some folks seem to fear that if they take hold with any pep, they will work themselves out of a job. There is a world wide feeling of letting down after the war, and it seems to take the ambition out of a lot of people. They know that labor is short. They think they are sure of their jobs even if they do work in an indolent manner.

A good idea for renewing the spirit of emulation, is being worked out by the Baltimore and Ohio railroad. They publish monthly the car movement on all their divisions, with figures showing increase or decrease. It is the policy of the management to encourage the spirit of emulation and competition.

"Make it a mile a day more this month," is the motto that is being passed around the system.

That is a splendid idea that everyone may apply to his own business. The man who is going to succeed in life, is the one who watches his production. He is ambitious to do both more and better work. That kind of worker is the kind that attracts attention from higher up, and the one who is picked for promotion when vacancies open up.

World's supply of cotton said to be short. One reason perhaps is that it takes such a large share of it to turn out "All wool" goods.

MICHIGAN.

(Cleveland Plain Dealer.)

Michigan offers material for deliberation among the party-wise in both organizations. The effects of Tuesday's primary will be felt in many other states, to culminate in Chicago and San Francisco in June.

Michigan puts Leonard Wood on the defensive. In number of pledged delegates he must still lead in the Republican race, but his candidacy is momentarily at least eclipsed by the greater brilliance of Johnson's performance.

Michigan takes Hiram Johnson out of the ranks of mere favorite sons and makes him a real contender for the Chicago nomination.

Michigan practically eliminates A. Mitchell Palmer from the Democratic ticket. His strength was always problematical. It is today wholly nonexistent.

Michigan speaks and pushes him universal military training, against the League of Nations, in favor of a liberalization of the prohibition enforcement act.

Michigan puts Herbert Hoover in the possibly unintended position of declaring him a candidate of the people rather than of either party. It proves his vote getting power and the impotency of partisan organizations to control results in a state where voters have habituated themselves to independent thinking at the polls.

Michigan deals a blow to the aspirations of Lowden and pushes him back into the group of favorite sons. Were it not for Wood, Lowden's opponent in the Illinois primary next week, it is not improbable that the governor might lose even his own state.

Friends of Senator Harding pretend to be tremendously encouraged by Wood's reverse on Tuesday. They read into the result an augury of certain success for the senator in his own state. The Harding followers may be right, but there are considerations on the other side. Harding himself was not a candidate in Michigan. Johnson and Wood divided the old Roosevelt vote. The Roosevelt vote in Ohio has been rather generally conceded to Wood, in spite of Harding's efforts to explain the Aaron Burr editorial of 1912.

If the former Roosevelt following clings to Wood in this state as it clings to Wood and Johnson in Michigan it is likely to sweep Harding off his feet. There is, of course, no assurance that it will. Harding and Lowden have much the same political backing, either of them being completely satisfactory to the reactionary leadership of their party.

If Ohio Republicans feel toward Harding as Michigan Republicans felt toward Lowden the senator, of course, will be beaten. This obviously ignores the favorite son element of strength which will operate here but did not in Michigan.

In character of population Ohio and Michigan are similar. Michigan industrial centers voted against the League of Nations and in favor of modifying the Volstead act. The cities voted Wood and the other backed Palmer. The people are drawing their own political conclusions this year, a truth that should weigh with organization leaders on both sides.

Both the Chicago and the San Francisco nomination is made through partisan machinery controlled by experienced leaders. Michigan teaches the vulnerability of party organization.

More than 20 per cent of the graduates from engineering courses in Michigan colleges have entered the government service.

That the Julian year was for 1600 years regarded as nearly perfect? But in 1582 a difference of eleven minutes between the year as fixed by Julius Caesar and the solar year had amounted to ten days. To correct this error Gregory XIII ordained in 1582 that the year should consist of 365 days, October 5 becoming October 15. Most countries adopted the change at once but some

continued for a longer or shorter period to adhere to the old style. It is necessary, therefore, when dealing critically with dates after 1582 to ascertain what "style" was in use at the time and place in question.

THE WORLD AFLAME.

(Cincinnati Enquirer.)

The occupation of the eastern bank of the Rhine by the armies of France is a sad commentary on the gospel of peace, which, though it is preached from the days when mighty armies swept to the death grapple. The clash of arms resounds on the Rhine, on the Dnieper, on the shores of the Baltic and the Black seas, in the deserts of Arabia and on the icy plains of Siberia. This din of arms all over the world calls to mind the words of the prophet: "They cry peace! peace! Yet there is no peace."

The American nation is observing the scene with calmness, but not with indifference. A world conflagration has broken out anew. Prudence commands that developments be watched with observant eyes. What was thought to be settled in a state of disorganization. Continuing interests, which were believed to be reconciled, are disquieting a world longing for peace and in urgent need of recuperation. In this darkness it is impossible to discern whether the legitimate interests of the United States will find due consideration in international trade is of as much importance to this nation as to other nations, and the United States cannot afford to allow the closing of the markets of the world to American industry and commerce.

Trustful waiting will not meet the situation. It also requires preparedness to assert the rights of this country. Trust not in princes, nor yet in nations. Nations simply are men in the aggregate, and as such are prone to the same weakness and variety of opinion. The American people are safe only in relying on their own strength. If need be they must be strong enough to fight their own battles, and it is their duty to prepare for such an emergency by compulsory military training and by keeping ships and guns in readiness.

NEW SCHOOL HEAD IN OHIO.

(Ohio State Journal.)

Vernon Riegel, who has received from Governor Cox the appointment as state superintendent of public instruction, has done his most conspicuous work in development of country schools. In that line he was one of the most successful workers in the state. After years as a teacher he became superintendent of schools in Marion county. As an organizer he displayed remarkable ability and as a director and pioneer he pushed the schools of Marion county up near the place in the state. He is an enthusiast, knows from his own boyhood experience the need of better country schools and understands how to develop them and make them meet the demands of the times.

For men in the state who feel the conditions and needs of country schools better than he, and whose interests, while he is in office, will be very close to his heart. He is devoted to the boy and girl whose educational opportunities are limited to the country schools and their interests will be safe in his hands. It was an appointment on merit for his work in school development and his ability in organization and forward-looking work entitled him of consideration. Those who know him best understand the ability he brought with him to the high post given him.

Twenty deeds with a total consideration of over \$50,000 were filed in the recorder's office Saturday.

The Citizens Building and Loan association is now located in its new quarters on the ground floor of the west side of South Third street.

Compliments of the Season From the Interstate Commerce Commission to the Railroads—AND THE DEAR PUBLIC

Married Strangers

A powerful story dealing with a problem being worked out in thousands of American homes to-day—that of the husband and wife who find they grow apart while the man goes off to war.

By FRANCES DUVAL.

Copyright, 1919, by The Wheeler Syndicate, Inc.

CXIX.—The Eternal Question.

When Bennett attempted a second caress, Keitha drew away.

"What's the idea?" he demanded angrily. "Haven't I a right to kiss my own wife?"

His anger restored Keitha's poise. She moved away and touched her hair that his caress had disarranged.

"Do you care for a kiss that is only given because it is 'rightfully' yours?" she asked.

He flushed.

"It's the only one I'm likely to get from you," he retorted with a trace of bitterness. "See here, Keitha, it's time we came to a show-down. I've let you get away with this stuff long enough. Either you love me or you don't. Now which is it?"

"I—don't know," replied Keitha not quite truthfully.

"Tommyrot! Of course, you know! Out with it!"

But I don't, Lester," Keitha replied staunchly. "Sometimes I think I care, and then there's an incident like this Warrington affair or Betty Arnold, and I think I hate you for the way you hurt me—my pride."

He caught her hands suddenly in a strong grip.

"Is it only your pride I hurt, dear?" Keitha looked at him resentfully. Any tenderness for him vanished.

"You'd like me to say that you break my heart, wouldn't you? It would please your vanity."

He flung her hands from him with an exclamation.

"Well, you can't blame a chap for wanting his wife to show a little feeling when he pays attention to other women. He doesn't like to believe that he means so little to her that she's willing to trade him off to somebody else."

"What an ego!" murmured Keitha. "Good Lord, Keitha!" Bennett broke out in exasperation. "Can't you be human? Can't you feel affection or—or jealousy, or any of the emotions that distinguish people from automats?"

"The strongest emotion you experience seems to be gratified vanity," Keitha replied coolly.

"Keitha, for the love of Heaven, try to see things from a man's point of view occasionally! I like pretty girls. I own it. I'm no recluse. I'm a normal average sort of a chap with red blood in my veins. But because I admire a pretty woman and like to play about a bit with her, doesn't mean that I can't love and be faithful to one—the prettiest of them all, the one I chose out of all the world to be my wife."

"Please don't be theatrical," returned Keitha with a shrug. "And do let's change the subject. I'm not taking you to task for your—friendships, and it embarrasses me to be accused of doing so."

"But you objected actively to my acquaintance with Mrs. Warrington," he interposed quickly.

Keitha flushed. She was fairly caught. She had forgotten her carefully planned program.

"I—stammered."

"He took advantage of her confusion and drew her to him again.

"You do care, Keitha," he whispered against her ear. "Say you do, sweetheart, and let's be done with this Kill-kenny-cat existence."

Keitha kept her head turned away from Bennett, but his warm lips were against her cheek.

"I can't love you," she insisted desperately. "You are attractive and you have a way with women that is irresistible, but you represent none of the things that I want in a husband."

He released her quickly and moved away.

"Good Lord, Keitha, you can't reason about love as though it were a problem in engineering! You either love a person or you don't and you generally love them for some ridiculous illogical reason. If I'd loved the girl I ought to have loved by all rights, it would have been Betty Arnold. But it happened that I didn't. I fell in love with you—who are of course the last girl in the world that I SHOULD have cared for if I valued my peace of mind."

Keitha sighed. Another impasse! Would they always go round and round in a hopeless eternal circle?

The sun went down into the tropic sea while they sat silent on the beach in awkward estrangement.

Extra Tails for China's Cab Horses

Peddled, Like Balloons, in Streets

If these long rows of horse-hair fly-swatters suggest that there are many flies in China, the suggestion is incorrect. There may be a few flies in the streets, and every man (horse-man) carries a swatter for the protection of his charge while he is waiting for his fare. But in the houses, says the report of China of the

Interchurch World Movement, there are practically none of the germ-laden pests. This is due largely to the fact that garbage of all kinds is carried into the fields and turned at once into the ground for fertilizing purposes. Is it possible that we could take a few tips on sanitation from the heathen Chinese?

FIRE DESTROYS HOTEL AT LAKE

Shell Beach Structure Is Burned Late Thursday, Fire Starting In Kitchen — Was Ready For Season.

Shell Beach hotel, one of the better known summer resorts on Buckeye Lake, was destroyed by fire late Thursday afternoon.

Harry Stewart, who had leased the hotel for the coming season, was staying at the hotel and some repairs were being made on the water system which is used for fire protection.

Yesterday afternoon water was being heated on a kitchen stove and it is thought the high wind blew some of the flames against the wall. It quickly ignited, and although only discovered it was impossible to save the building.

Men working around the hotel saw the fire about 5 o'clock and the piano, some bedding and a few articles of furniture were all the were able to save. The building had 20 rooms, and was burned to the ground with the ice house, which was full of ice.

The hotel was owned by the Ohio-West Virginia Motor club, having been purchased by it in 1915. The owners used it for about three years as a club house, but for the past two years it had been leased for hotel purposes.

The loss to the club is about \$20,000, partially covered by insurance, while Stewart's loss in groceries and provisions with which he had stocked the hotel, is about \$1,200 uninsured.

Among the directors of the company are Captain Fisher of the Fisher boat line, at the lake, and Howard of the lake, President Ben S. Gayman of Columbus, and a number of Lancaster people.

MEMORIAL COMMITTEE ORGANIZES FOR YEAR

A meeting of the general memorial committee was held in G. A. R. hall last night. Representatives of the American Legion, Women's Relief Corps, G. A. R., World War Veterans, Sons of Veterans, U. V. L. and Daughters of Veterans were present. Officers were elected for the year as follows: G. T. Bramlage, chairman; T. T. Snyder, secretary, and James R. Ashbrook, treasurer. These representatives met for the purpose of formulating plans of the memorial services in the city for Memorial Day.

The next meeting will be held April 15 at 8 o'clock at the G. A. R. hall, and all patriotic organizations have been invited to send committees.

THE HUB

CENTER OF MUCH HISTORY

Palace of Versailles Has Figured in
Events Which Affected Whole
Civilized World.

The palace at Versailles ranks among the world's historic centers where nations made history. There Great Britain first recognized the independence of the United States. The French Revolution was given birth when the Third Estate formed a national assembly there. William I was crowned German emperor at Versailles while Paris was being besieged, and representatives of the civilized world made peace at this eminent palace with the "Madman of Europe."

Versailles became historically great by mere chance. Having first served as a hunting chateau for Louis XIII, it attracted the next Louis, who planned his residence on so large a scale that the construction of an aqueduct engaged 30,000 men for many years. It later vibrated with the echoes of human dramas, involving the disaster of Louis XIV and Marie Antoinette. The unhappy Valliere, the vainglorious Montespan, and the austere Maintenon successively loved, infatuated and exploited Louis at Versailles. The brilliant Pompadour and the seductive du Barry shone among the mistresses at the palace, while some 10,000 drunken women from Paris broke through the gates and sent Louis fleeing to the Tuilleries.

The "Gallery of Mirrors" reflects a great many interesting scenes connected with the story of Versailles among them being one which shows Louis making pancakes for his mistress' breakfast, the most arduous exercise of the man who proclaimed himself "the state."

ESKIMO DANCE WORTH SEEING

Ceremony Indulged in by Both Women
and Men Is Performed With
Rhythmic Grace.

Eskimos of Alaska perform their dancing feats to the sound of "tom-toms" with round, flat heads and short handles. The heads of the instruments are of seal hide, which the natives moisten from time to time with a sponge to keep tightened. They beat on the under side of the drum-head with long, slender willow wands, little chips breaking off the sticks all the time and flying about. With a slow, monotonous chant at first, they gradually work themselves into a frenzied shout and loud, resonant beating of the drums as the dance goes on.

While they dance the men are stripped to the waist, but the women wear their calico "Mother Hubbards," or denim parkas, with a gleaming halo of wolfskin about the face. The dancing ceremony begins with a "muscle dance" by a young boy, in which the men later join, after which comes the "wolf dance," with more energy and loud shouting. The women then join in, one by one, with marvelous rhythmic grace of movement.

When the dance is over one of the musicians takes up a collection in his "tom-tom." The non-native white guests usually contribute tea and candy, it being wrong for a guest to give money.

Mother Otter's Job.

The young otters—blind and downy—are born in a soft-lined nest under the shelter of an inaccessible bank; the mother will at first hardly leave them, save on feverish rushes after the food necessary to keep up the supply of milk. To guard them she sleeps, like many a human mother, with at least one ear awake. When they open their eyes she cautiously carries them to bask for a while in the winter sunshine, for their birthdays are often in January. When they can clamber she teaches them the woodcrafts of the immediate vicinity of the "hoover," and then communicates many of the valuable lessons she has learned, sometimes taking occasion to punish the unruly members of the family by biting them.

Saint Lucy.

Refreshing as a spring on a July noon, lovely as the song of the thrush at the close of a gaudy day, is the life-record of Saint Lucy. The dear girl, whose name, from the Latin (lux, lucis) means "light," was born in Syracuse in 304 A. D. Her startling beauty brought a mob of suitors at her feet. But she had vowed herself to the religious life and declined their addresses. A young nobleman, maddened with love for her, accused her to the governor as professing Christianity. In the fearful persecution under Diocletian she was martyred. She is represented in art as holding a platter with her two eyes upon it.—Chicago Journal.

Warned by Sandpaper Label.

A device for protecting people from taking doses from poison bottles by mistake is a sandpaper label. The ordinary label is pasted on a piece of sandpaper large enough to go all round the bottle, so that when anyone takes up the bottle in the night, no matter how dazed from sleep he may be, the rough unfamiliar feel of the sandpaper warns him and he recognizes at once that the bottle contains poison of some description. The printed label tells the kind of poison in the bottle.

Proved.

Medicinal Native Plants that hold the secret of life and death—By Lee H. Smith, M. D.

A man is seldom healthy and strong who lives in the dark or in sunless rooms. After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of plants and herbs.

Dr. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., in many years of extensive practice, found that he could pin his faith to an alternative extract of certain plants and roots for the eradication of blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor narcotics, entirely vegetable, this "Discovery" makes for rich red blood and is a powerful tissue-builder; gives the tired business man or woman renewed strength and health. Rapidly growing school-girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery. If you "put your house in order" by making the blood pure you will not be subject to such troubles. The spring of the year is the best time to "clean house" because of the toxins (poisons) stored up within the body during the long winter. This "Medical Discovery" of Dr. Pierce's is just the thing for those who are recovering from attacks of colds, flu, or pneumonia. It has been sold for over fifty years and can be had in every drug store in the land in tablets or liquid. Send 10c for trial package of tablets (1) Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

AMUSEMENTS

AUDITORIUM.
The Mystery of the Yellow Room, a screen adaptation of Gaston Leroux's novel of that name and a Reelart picture, which opens today at the Auditorium for a three-day run, will no doubt be popular with all who like mystery melodramas. As the name implies, it is a mystery, the plot being woven intricately around the strange attacks on a girl in the "Yellow Room" of a French chateau from which there is apparently no other means of escape than a door which is always locked from the inside at the time of the attacks. The picture holds the interest of the spectator and defies efforts to anticipate the solution until the very end. Pathe News is also seen.

The Sheriff's Son.
Charles Ray, always a welcome screen star to movie fans of Newark, comes to the Auditorium on Sunday, and will be seen in the Paramount feature, "The Sheriff's Son."

Constance Talmadge.
Girls, do you want to know how to be charming and bring all men, or the other way around, to your feet and keep them there?

Constance Talmadge, who plays the part of one in "Two Weeks," says it's just as easy and almost any girl can do it.

"I don't mean the vamps of Burne Jones or Kipling—the rag and bone and hank of hair kind—but the nice bewitching kind. I don't think much of the girl who goes around trying to smash men's hearts just for the fun of breaking them," said Miss Talmadge.

"The vamping I mean doesn't require stunning looks and a figure like a Venus. Any girl with ordinary looks can make a man like her."

"What you must do is to take a special interest in him. Find out what he likes and talk about it. Pay attention to everything he says and be a good listener. He'll fall every time."

"If you just listen to all he says, and look wise, he'll think you are so sympathetic and that your nature is so deep, not shallow and frivolous like most of the girls he knows—those who don't listen to his burning words of wisdom."

"Two Weeks" will be screened at the Auditorium for three days, beginning Monday.

"Chin Chin" Coming.
Manager Fenberg announces Charles Dillingham's only company presenting that wonderful spectacle, "Chin Chin," as his attraction for the Auditorium, matinee and night, Saturday, April 17. This play appeared first at the Globe Theatre in New York for two solid years, and has since proven a big sensation to the players in every town where presented. In the leading roles will be seen Walter Wills and Roy Binder, who come to us with the stamp of approval won in such productions as "The Wizard of Oz," "The Red Mill," "Hitchy Koo," etc.

ALHAMBRA.
The Capitol.
Leah Baird's world of admirers have a treat in store for them in the noted emotional artist's newest, Augustus Thomas drama, "The Capitol," a W. W. Hodkinson release which comes to the Alhambra theatre Sunday.

The star portrays the role of Margaret Kennard, the young wife of a prominent lawyer, who is induced by a scheming individual, James Carroll, to abandon her home and flee with her baby daughter, Agnes. Carroll, knowing that Kennard possessed papers proving him a criminal, persuades Margaret to steal them. He takes her and the child to a country bungalow. Pursued by Kennard, Carroll escapes, leaving the woman and child in the house, which catches fire and is destroyed. Kennard, believing his wife and baby perished, enters the ministry.

The Ordeal of Rosetta.
In "The Ordeal of Rosetta" Alice Brady displays her versatile artistry in the dual role of the twin daughters of Professor Galardi, whose home is destroyed by an earthquake at Cantona, Sicily. The father and Rosetta come to New York, where she becomes a stenographer and later the secretary of a popular novelist. Her sister Lela falls into evil ways and drifts to South America. Later she, too, comes to New York, her misguided attempts at avenging Rosetta's imagined jilting leading to tragedy. But in reality Rosetta comes through her ordeal victorious, after gaining the love of "the one man in the world."

The Poppy Girl's Husband.
They have put Bill Hart in stripes running horizontally across his new Artcraft picture, "The Poppy Girl's Husband," which will be seen at the Alhambra theatre next Monday and Tuesday. Bill isn't averse to wearing

stripes as long as it is only in pursuit of his art. Also, he does not mind sitting in a cell so long as he knows it is made of wood instead of steel. He did hate to sacrifice his hair, but it had to be, and he went to the barber's cheerfully and had a close trim. Juanita Hansen, who is known far and wide for her excellent screen work, is leading woman.

GRAND.
The Beloved Cheater.
The friendship of two men which went so far that one begged the other to kiss his fiancée in order to win her over to the idea of kissing before marriage, is one of the starting forces of "The Beloved Cheater," in which Lew Cody will appear at the Grand for the last times today.

"The Grocery Clerk."
The police force and motor bus were loaned to Larry Semon for "The Grocery Clerk," which will be shown at the Grand theatre tomorrow. No one thought to ask Larry what he intended to do with it. The thoughts of publicity dulled the reasoning power of the citizens of Hicville. They all had visions of seeing Hicville exploited in the films and linked up with Larry Semon, the comedy king.

GEM.
A handsome young man, Dick Durand, and guilty of a great deal, but blamed and suspected of twice as much, is "wanted" for about every black deed known to the old west. Finally he holds up a party of settlers and takes their gold. As he is about to leave, Indians swoop down on the settlers and Durand becomes the leader of the settlers in the fight that follows against the Indians, but the entire crowd, except Durand and three children are killed. "Durand of the Bad Lands" will be screened at the Gem Monday and Tuesday.

AT THE HARTMAN.
Messrs. Lee and J. J. Shubert are sending to the Hartman theatre, Columbus, those irrepressible and side-splitting old-timers, McIntyre and Heath, in "Hello Alexander," the funniest vehicle yet provided for their mirth-making. They will start many miles of smiles Monday night, April 12, when they start their week's engagement in Columbus.

"Hello Alexander" is admittedly a legitimate descendant of "The Ham Tree," in which these famous comedians starred successfully for several seasons. In the line, James McIntyre and Thomas Heath are inimitable. The Shuberts have provided them not only with a gorgeous production in two acts and nine scenes, but have given them a company of talented artists, along with 50 Broadway beauties, who sing and dance with zest and abandon. In this new musical extravaganza, which will play two matinees during the week Wednesday and Saturday—McIntyre and Heath appear in a series of screamingly funny scenes.

On the following Monday, April 19th, Frances Starr makes a most welcome return to the Hartman after four years' absence from Columbus. She will bring with her in the splendid David Belasco production, "Tiger Tiger!" the self same original New York cast which has presented Edward Knoblock's fine play during its long run on Broadway.

LUTHERAN CHURCH.

"We're always meeting friends"

—Chesterfield

OVER three million smokers—over three million friends—know the "satisfying" goodness of Chesterfield's expert blend of fine Turkish and Domestic tobaccos.

These smokers know that such richness of flavor, such mellowness of taste, can only come from the choicest tobaccos, bought and blended by experts.

And they know that the Chesterfield blend is an exclusive blend, that it cannot be copied or even closely imitated. They know that only Chesterfields can "satisfy."

But—how about you?
Lightly and smoothly.

Extra wrapper of moisture-proof, glassine paper on every package keeps Chesterfield's freshness and flavor intact.

1. Tax-Free in Ohio.
2. Company: Established twelve years ago, to manufacture a sturdy business car as well as a luxurious passenger car. Only the best of material and equipment go in the Halladay.
3. Market: The automobile market is estimated to be 2,000,000 cars short of the demand.
4. Demand: The demand for the product of the Halladay Motors Corporation company far exceeds the supply. For this reason the company is erecting a plant in East Newark that will be capable of immediate expansion.
5. Distribution: The entire product is sold to Mr. A. B. Stone, a Cleveland capitalist, who arranges the distribution. He assumes a six-car-a-day contract to the Eastern distributor.
6. Profits: The profits on six cars a day will exceed five times the normal rate of a dollar.
7. Management: Mr. T. E. Huth, president of the Halladay Motors Corporation company purchased the Halladay rights and all materials two years ago. He borrowed two-thirds of the purchase price, established a plant at Attica. In two years' time the company has been freed of all incumbrance. Even the materials being purchased now are paid for upon arrival. Today Halladay is free from every incumbrance.

Your Opportunity is in Common Stock

By purchasing the common stock your dividends are not limited. You share in the success of the company. Consider the large dividends paid by other automobile companies. Could you buy their common stock now? Act now. Halladay common stock now sells at \$100 a share. Act now. Mail coupon.

WEIGHT MATTER OF MOMENT

These Two Bridegrooms Could Hardly Have Wished Their Loved Ones to Be Less Plump.

In the romance of Boston history is to be found a story which tells of the dowry Capt. John Hull, master of the mint in the early days of Massachusetts, gave his daughter Hannah when she was married. The story runs that her father asked her, after the ceremony, to stand on one side of a scale while he placed bags of Pine Tree shillings on the other, until the scales balanced. The coins then went to the daughter as a dowry. Hannah Hull became the wife of Judge Samuel Sewall, afterwards chief justice of the province and head of one of the most noted families of New England.

There is a tradition that Joseph Richardson, an eminent Philadelphia merchant, went still further in the following century in estimating the worth of his daughter Sarah when she was to become a bride. Nicholas Wain won the hand of Richardson's daughter a few years before the Revolution, whereupon Richardson said that he would not only say that Sarah was "worth her weight in gold," but would actually bestow the precious metal upon her to that equivalent. Instead of placing silver coins on scales, as in the case of Captain Hull, Richardson rated on a higher scale of value, using gold instead.

HIGH SPOT OF ADVENTURE

Pacific Coast Has for Many Years Been the "Hunting Ground" of Gentlemen Adventurers.

The Pacific coast seems to be favored of the "gentleman adventurer," for one, a Scot, has given a great collection of South Sea relics, arms, armor and utensils to the University of British Columbia at Vancouver. The other, an American, a veteran of the regular army who has seen much service in the army and out of it, has given a Boxer flag to the Golden Gate Memorial museum at San Francisco. Both loved the open, the stir of arms and the savor of strange places. The Boxer flag brings up what today is almost ancient history; the siege of the legations, the coming of the occidental troops and the perils and sufferings of the men and women in that siege, have furnished novelists and writers of stories with much "stuff." The South sea and its vast stretches have had the same lure for the adventurous, and now in their respective resting places these relics and trophies are there to show what two strong men of other lands found and kept. When we say that the Boxer flag was with its owner through St. Mihiel, the Meuse and the Argonne combats, and at Ypres, we have let an Odyssey describe itself.

Picture Lore.

To paste new paper on picture backing, cut the paper the proper size, float it in water till it is quite wet, apply the paste to the frame and, wiping off actual drops from the paper, press it in place. As the paper dries it shrinks, stretching smooth.

If you want to hang a small picture from an invisible wire brad and find difficulty in locating a beam in which to make it fast, run your eye along the topboard till you see where that is nailed. Hang the picture in a line with that. Small pictures hung on wire nails with taut wire won't show the wire nor skew on their nails, if two nails are used to pass the wire over instead of one.

To prevent ugly dust lines on the paper behind pictures drive a small brass-headed tack in each lower corner of the frame to hold it out from the wall so air can circulate behind it.

Here's How to Do It.

When a cork slides down inside a bottle it is very difficult to get it out, unless one has the necessary tools, and they are not always available. A good way to extract it is to grease the neck of the bottle with vaseline, then hold the bottle under cold water. When the bottle is as cold as possible, spear the cork with a hatpin, or even shake it until it blocks the neck of the bottle and sets straight with the neck. Then gradually heat the bottle or pour hot water over it and the expanding air will generally force the cork out with a slight pop.

Close to Perpetual Motion.

The nearest approach to perpetual motion was a clock constructed in 1774 by James Cox, a jeweler at Shoe Lane, London. This clock kept the scientific world guessing for years. The energy that made it run was derived from the changes in atmospheric pressure—a barometer was the sole motive power. Ferguson, the scientist, saw this clock; said it unquestionably would run until its parts wore out. The last heard of it, it had been sent as a gift to the Chinese emperor, from whom it later was stolen.

The Finger Nail's History.

The rapidity of the growth of the nails is indicative of the health. The growth of the nails on the right hand is in most people more rapid than of those on the left hand. Another curious point is that the rate of growth of the nail depends directly on the length of the finger; thus the nails on the two middle fingers of men grow more rapidly than those on the first and third fingers respectively, and these in turn are more speedy in the growth than those on the little finger.

Magnifying glasses of men are slaves to their passions. "But the world is full of manipulators."

Keep The System Clean And You'll Be Healthy

Elimination helps to avoid colds, headaches and epidemics

ANYONE who has watched himself know there is nothing so important to health and comfort as regular elimination. Half of the minor illnesses of life are due to neglect of this. The five million men who were in our army know the importance of the doctor attached to this function.

By all means try to regulate yourself by intelligent diet and exercise, but when these fail you will need a laxative, one is near to nature in action as skill can make it. In the opinion of many thousands of good Americans, such a one is Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts promptly, gently and without gripping and will with certainty regulate any tendency to con-

stipation that you may have. Take it when you feel drowsy, dizzy or listless, when you feel a cold or a fever coming on, when there is an epidemic, when you have eaten anything about which you are in doubt. It is at such times that you need to be free of poisons and of fermenting foods. You can buy Dr. Caldwell's Syrup Pepsin at any drug store. Thousands of families have it constantly in the house against emergencies.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

BEST TALENT IN SCHOOL APPEARS IN STROLLER PLAY

Director Had Large List of Aspirants From Which to Choose Eleven Characters.

Lovers of dramatic art in this city will have the opportunity of seeing one of its own sons on the stage, when the Strollers Dramatic club of Ohio State University presents "Muffin" here on Thursday, April 15, with Wayne C. Overturf, of this city, in the leading role.

The play deals with present-day life as seen from the standpoint of a discharged soldier and is an interesting drama in three acts. The play was written by Director Robbins, who wrote it immediately upon his release from the army, after seeing service in France. It is full of human interest and is one that will appeal to a wide variety of people, and especially the discharged soldier. The play calls for eleven members as follows:

Lieutenant Colonel Robert Pynter—Wayne C. Overturf.
His Wife—Christine Anderson.
Lieutenant Mitchell (demobilized)—Irving Lynch.
His Wife (French maid)—Thelma Paquette.
A Butler—Frederick J. Zint.
A Woman Friend (a slangy divorcee)—Georgia A. Backus.
A Sculptor—Charles R. Brokaw.
A Spiritualistic Medium—Markley Frankham.
Edgell—Leo W. Bayles.
French Maid—Virginia Krier.
A Cook—Lenore Hubbard.

This play bids to surpass any previous production by the Strollers. Many old members of the organization were unable to secure places in the cast this year. The cast, as it stands, includes the best of the university drama talent. Six of the members of the company have had previous stage experience. Miss Backus, playing the part of a slangy divorcee, has traveled on the Keith circuit.

STATES TO GET WAR RECORD OF MARINES

Washington, April 9.—The full war record of every marine who rendered service during the world war is being furnished the adjutant general of each state which was represented in that corps.

These record cards are being sent by marine corps headquarters to the state where the marine enlisted, unless the records show that the man actually belonged in another state.

COLLEGE WOMEN SEEK FUNDS TO KEEP PROFESSORS FROM "JOBS"

Mt. Holyoke College's drive for money to increase the salaries of its professors "to prevent them from leaving for 'jobs' that are more lucrative" has reached every city and county in Ohio.

More than 150 prominent women, graduates of the college, have been organized into central committees in the various territories, each of which is volunteering time and money to make the campaign a success. Ohio's share in the campaign is \$100,000.

Among the women serving on the various committees are Mrs. Ethel Cotton Schwartz, Portsmouth; Margaret E. Lewis, Cleveland; and Phyllis Hank, Cincinnati. Miss Lewis is a senior at the college and president of the student league. She makes frequent trips home to take personal charge of the work.

Mt. Holyoke College was the first women's educational institution in the United States. It occupies a large part of the city of South Hadley, Massachusetts.

LOVES WHICH FADE AFTER THE WAR. THEME OF STROLLERS' PLAY "MUFTI"

Ohio State Strollers will present "Mufti" for their twenty-seventh consecutive spring play this year. The name "Mufti" was selected at a Stroller meet, since, translated, "mufti" means civilian clothes, which is the theme of the play.

The play has been written by Director Carl B. Robbins since he was discharged from the army last month. The time of the play is the present. It deals with the frivolous modern-day life as viewed by an ex-soldier.

New York is the background of the play. Two love stories are carried out in the plot. A young lieutenant who married a French girl in Brest returns to the metropolis and first visits his former colonel. The colonel, to whom the lieutenant is indebted for his life, married an American girl three weeks before leaving for France.

The love, which looked so bright during the war, seems to have faded for both soldiers. The little French bride cannot accustom herself to New York and the colonel's wife takes the white lights in preference to the red of the war stories before the nocturnal fire-side.

Director Robbins has filled the play with incidents which the army man lived, breathed and cursed. The New York is the city as we know it today.

Only seen through the eyes of one who has been in France for thirty months. Much humor and comedy is placed in the lines or witty take-offs on prohibition. Several blase characters of Fifth

avenue are introduced into the cast and show up in sharp contrast with the blunt remarks of the two military men.

Director Robbins is well known to Columbus theater-goers. In the past Strollers' golden years were those when Mr. Robbins, who is an old Stroller himself, conducted the play.

In order to advertise the play, Strollers have offered prizes for the five best posters to be drawn by students, telling about the plot of the production.

FRECKLE FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

GERMAN LIVING COST IS HIGH

Food Necessaries Show Advances Up to 4,000 Per Cent Since 1914.

CLOTHING AND SHOES UP

Official Report From Berlin Declares That Middle-Class Struggle for Existence Is Hopeless—Sugar Is Least Affected.

Washington.—A report received here through official channels from Berlin outlines by comparative tables of prices of essential commodities in 1914 and 1920 the advance in the cost of living in Germany since the outbreak of the European war.

According to the figures, the cost of living for an unmarried clerk living away from home has risen from 177 marks a month in 1914 to 500 marks this year.

The actual cost of the essential articles of food for a family of four at present is estimated at 650 marks a month.

Clothing Out of Question.

Clothing, the report says, is impossible to purchase at present prices. A suit which in 1914 cost 80 marks is now reported to sell for 1,000 marks, a price increase of 1,150 per cent. The cost of shoes has increased over 1,000 per cent. Shoes which in 1914 sold at 15 marks a pair are now bringing 175 marks. Men's shirts which could formerly be bought for 7½ marks each are now being sold for 95 marks, a rise of 1,166 per cent.

Similar price increases prevail for all essential commodities, the increases ranging from 225 per cent for electric current to 1,556 per cent for soap, a piece of soap which before the war cost 30 pfennigs now selling for 5 marks.

The increase in the cost of food essentials, according to the figures given in the report, is even more startling. The cost of eggs has risen 4,066 per cent, one egg now costing 2½ marks. Lard comes next, with a percentage increase of 3,733. Rice, cereals, butter and bacon have increased in price more than 2,000 per cent.

Sugar Increases Least.

The article of food which has increased least in price since 1914 is sugar, which has gone up the comparatively small amount of 316 per cent. Before the war sugar sold in Germany for 25 pfennigs a pound. It now brings, the report says, 1.04 marks. Milk also has retained a low cost in comparison with the tremendous increases prevailing in most commodities. Its cost has risen 320 per cent.

According to the report, the average monthly earnings of the German middle classes are only from 300 to 600 marks. Taking the needs as outlined for existence, the report says, examination of the tables gives some conception of the present hopeless struggle of the middle classes for existence on the meager return of their work.

TIPSY CAT LEADS TO LIQUOR

New York Revenue Officers Trail Inebriated "Tom" to the Source of Supply.

New York.—Confounding those who say cats will not drink hard liquor, Harold B. Dobbs, internal revenue agent, avers that a tipsy "Tom" reeling along the street led him and brother officers to a cache of 50 gallons of alcohol and other intoxicating beverages in the cellar of a saloon at Sixth avenue and Forty-fourth street.

In the place, according to Dobbs, were several more cats, and all hilarious. Moreover, there was a determined effort made by each cat to obtain a share of a dark brown liquid that had leaked from an overturned demijohn on the floor.

Thomas Fitzgerald, proprietor of the saloon, and his bartender, Hugh Lecky, were arrested by Dobbs and charged with violating the prohibition amendment.

Girl Sneezed So Hard Eye Popped From Head

Sneezing with such violence as to cause her eye to fall out was the experience of Miss Marjorie Pryor of Chester, Pa. The optic was replaced.

According to the hospital authorities, it is not unusual for the eye to be removed for some operations, but to have it forced out by coughing or sneezing is unique in medical annals. Miss Pryor has left the hospital, suffering no serious effects from the peculiar experience.

ERIN SENDS LIONS TO AFRICA

Dublin Zoo Exports Irish-Born Beasts to Dark Continent—First Time on Record.

Dublin, Ireland.—Dublin is now exporting lions to South Africa. The Dublin Zoo has a famous lion house, where the animals have been successfully bred. It has been able to supply lions on demand to other zoos in the United Kingdom, but this is the first time an order has been received from Africa.

This may be the land of the free, but even the subarctic isn't exactly a goddess of liberty.

FLY ACROSS PACIFIC

Giant Flying Boats Planned for
the Trip.

Will Cross From California to China,
8,777 Miles, in Four
Hops.

New York.—Two giant flying boats for the first flight across the Pacific ocean are being planned, according to the Manufacturers' Aircraft association. These planes will be nearly twice the size of the NC-4, which made the first trans-Atlantic flight.

The proposed route lies from San Francisco to Hongkong, China, a distance of 7,616 nautical miles, or about 8,777 land miles. Stops will be made at Honolulu, Wake Island, Guam and Manila.

The flight has been made possible, the association says, by an invention of Edson Gallaudet of East Greenwich, R. I., whereby three Liberty engines are coupled to one 18-foot propeller. The new boats will have three separate power plants, each containing three high compression Liberty engines, or nine motors to each ship.

The boats will be triplanes with a wing spread of 140 feet, as compared with a spread of 120½ feet of the NC boats. Each boat will have a wing area of about 6,000 feet and carry a crew of 16 men. The hulls will be 67 feet long, 22 feet longer than that of the NC-4. The cruising radius is estimated at 2,100 nautical miles, nearly twice that of the NC craft.

Three high compression motors will drive each of the three propellers. Each unit of three motors will be installed in a separate nacelle, thus making possible repairs while in flight. Each propeller will be driven by two motors with one in reserve.

Enough gasoline can be carried to permit a cruising radius of 2,500 land miles without stopping.

LEARN AND GROW HEALTHY

Photo shows little Miss Minnie Lin, one of the pupils of the open air class of public school No. 5, Brooklyn, N. Y., who learns the three R's while bundled up in blanket and bag. LADY GEDDES AN AMERICAN

Wife of New British Ambassador to
United States Was Born at
Dobbs Ferry.

New York.—Lady Geddes, wife of Sir Auckland C. Geddes, named British ambassador to this country, is an American girl.

She was born at Dobbs Ferry, and is the third daughter of the late Mr. and Mrs. W. A. Ross, long residents of Staten Island. Both came from north of Ireland stock.

She was married to Sir Auckland in 1905 in St. Mary's Protestant church, West New Brighton, and shortly after went to live in Edinburgh, where her husband was assistant professor of anatomy in Edinburgh university.

Several years later they went to Dublin to live, and still later to Montreal, where he held a professorship at McGill university and later became principal. Sir Auckland joined the British forces at the breaking out of the war, and Lady Geddes remained in Montreal.

He was seriously wounded and invalided home. He was made brigadier general, and, later, knighted.

Don't Dodge Dog Tax.

Falmouth, Ky.—This county boasts a 100 per cent dog tax record. There's not a stray dog in the county and the 198 persons listed as delinquent came across quickly when threatened with loss of their homestead.

offered us a quantity of handsome Polo Coats at prices that
wouldn't pay for the materials. In view of the fact that high
prices are prevailing elsewhere, we knew the customers of this
store would appreciate an opportunity to secure the season's
newest and prettiest coats at prices less than the manufacturers
were asking earlier in the season, so we accepted this offer with-
out a moment's hesitation. The first shipment of this purchase
has arrived and contains about 100 of the jauntiest coats we have
seen this season, fashioned from Polo Cloth, Wool Velour, Tweeds,
Etc., in all the new tans, browns and blues. This is an opportu-
nity that no woman needing a new coat can overlook. Doesn't it
seem foolish and extravagant to pay higher prices elsewhere

GRANVILLE

(Special to the Advocate.)
Granville, April 9.—A committee from
the junior class of Sheppardson college,
consisting of Misses Helen Shumaker,
Lois Teeter, Grace McCune and Cor-
nelia Howell are in charge of the
special picture show at the Granville
opera house, tonight, featuring Elaine
Hammerstein in "Greater Than Fame,"
with the usual accompaniment of a
short comedy. The committee an-
nounces that it is through the courtesy
of Messrs. Austin and Graves, man-
agers of the opera house, that a \$6.50
proposition enables it to assume respon-
sibility for the show—in an effort to
raise funds to send delegates to the Y.
W. C. A. convention to be held at
Eagleville Park, Pennsylvania, in June.
Booths will be arranged for the sale of
sandwiches, popcorn and candy, before,
during and after the show, which starts
at 7:30 o'clock.

Rev. Joseph Bennett, D. D., who is
conducting a series of meetings in the
Baptist church, is succeeding in inter-
esting the large number who attend.
Last night he spoke on "The Kingship"
to an audience which packed the lec-
ture room of the church. Special music
was furnished by a quartet composed of
Mrs. T. S. Johnson, soprano; Miss Mar-
garet Seasholes, contralto; E. P. John-
son, tenor; Kenneth Ullman, bass. To-
night Dr. Bennett will preach and music
will be a soprano solo by Miss Givady's
Spencer.

Rev. H. T. Houf, the newly elected
pastor of the Baptist church, who ex-
pects to assume his pastoral duties next
month, has written the church that he
expects to pay a little visit to Granville
some time next week.

Marion Lee Hundley, small son of Dr.
and Mrs. Hundley, is recovering from
an attack of the grip.

The Denison Glee club returned the
first of the week from its concert tour
of cities in the northern part of the
state, and the members are enthusias-
tic over the success of the venture. The
club will sing at the Sunday morning
service in the Baptist church. The
date of the home concert is set for
May 4.

Wallace Tuttle, well known as a

leader of community singing, and his
sister, Miss Mary Katherine Tuttle, are
guests of their mother, Mrs. Tuttle and
their sister, Mrs. Ernest Owen in South
Pearl street. Clyde Tuttle, sporting edi-
tor of the Columbus Journal, who has
been in the south with the Columbus
ball team is expected to join the party
soon.

Dispatches from Cleveland yesterday
stated that Wallace Cathcart, director of
the Western Reserve Historical society,
and his aged father, Simon Cathcart,
were seriously injured in leaping from
a window in their house to escape death
from the flames which swept the place
at an estimated loss of \$40,000. Mr.
Cathcart is known in Granville as an
alumnus of Denison university, a mem-
ber of Phi Gamma Delta fraternity and
for several years also a member of the
Denison board of trustees.

Miss Alice Wilkinson, Red Cross pub-
lic health nurse, the only one in the
county, left yesterday for Atlanta, Ga.,
as national county delegate to the na-
tional public health convention, which
will continue for a week.

Our Boys and Girls

A baby, who is about nine or ten
months old at the beginning of sum-
mer, should, if possible, continue breast
feeding until September, because even
two or three breast feedings a day, may
be enough to keep his digestion in good
order, and in case he becomes ill, to
save his life. The breast milk should be
supplemented with two or three bottles
of cow's milk, properly prepared.

In addition some other food may be
given, but it must always be remem-
bered that in feeding the baby at this
age is as important as in infancy.
Changes in the diet in summer should
be made very cautiously and only one
new article of food should be added at
a time. It should be given at first in
very small quantities and its effect on
the baby should be watched very care-
fully.

If the baby vomits, belches gas or
shows looseness of the bowels, the food
should be greatly lessened in quantity
or taken away altogether until the dis-
turbance subsides.

SOCIAL AFFAIRS

East Main Street U. B. Sunday school
class No. 7 will meet with Marie Bur-
ton, Saturday afternoon at 1:30 o'clock.

McQueen-Fowler

Announcement is made of the mar-
riage of Miss Isa D. Fowler and Mr.
Clarence Burton McQueen of St. Louis.
The announcement will come to
a surprise to their friends, the wedding
taking place March 2 at Covington, Ky.
The service there was read by Rev.
Hugh Leith, Presbyterian minister, in
the presence of Mrs. Hugh Leith and
Miss Jane Gayle.

Mr. and Mrs. McQueen will be at
home in St. Louisville.

The Meanwell Society met at the
home of Mr. and Mrs. Wilbur Gault in
Boyleston avenue Tuesday evening.
After a delightful dinner a social time
was enjoyed. The prizes were award-
ed to Miss Elsie Van Tassel and Mr.
John Mazy. The guests were: Mr. and
Mrs. L. A. Gault, Mr. and Mrs. John
Mazy, Mr. and Mrs. Will Van Tassel,
Mr. and Mrs. Hugh Ellis, Mr. and Mrs.
James A. Dicks, Mr. Harry Shields,
Mr. G. S. Saur, Miss Dorothy Ellis,
Elsie Van Tassel, Harold Dicks, Billy
Gault and Miss Maurine Bishop.

Mr. and Mrs. W. A. Axline of Ful-
tonham, Zanesville, will celebrate their
50th wedding anniversary, Sunday. The
celebrants enjoy the esteem of a wide
circle of friends. For many years Mr.
Axline was a teacher and served as
Muskingum county superintendent of
schools. Mrs. Axline's maiden name
was Martha Bagley.

Mr. and Mrs. Axline have three chil-
dren, Dr. Theodore E. Axline, of Zanes-
ville; Rolline Axline, of Newark, and
Miss Eva Axline of the home. The
celebration will be in the nature of a
family party.

The Fleur de Lis club entertained
with a delightful dancing party at As-
sembly hall Thursday evening. The
Wyeth-Kosbrugh orchestra furnished
the dance program and the following
dancers were present: Misses Esther
Reichert, Dorothy Dewey, Geneva Frye,
Elizabeth Andrews, Lucille Johnson,
Virginia Woltjen, Beulah Hirsch, Sarah
McConnell, Angela Marie Kennedy,

for the last meeting of the calendar
year with Mrs. W. B. Nye of Hudson
avenue. There will be a musical pro-
gram and the meeting will be a guest
for. Each member is entitled to bring
one guest.

Meeting of Fourth District, Ladies
Auxiliary, Knights of St. John will be
held Sunday at 2:30 p.m. in St. Francis

school auditorium, Buttle and Harri-
son avenues, Columbus.

Mrs. Roy Litzinger was hostess to
the members of the Entire Room and
at her home in Walnut Lane Thursday
evening. The early hour was given to
business discussion and music and con-
tests were enjoyed. Messrs. Delbert
Varner and Charles Pink, gave cornet
solos and prizes in the contests were
given Mrs. Clarence Jaynes and Mrs.
Ed Hollister. The regular club contest
was won by Mrs. Florin Fletcher, Mrs.
George Thompson and Mrs. Paul De-
acon. The decorations were in the club
colors of pink and white and the
guests were entertained. One of the
features of the decorations was the
shells attached to ribbons, which when
opened contained a verse, making a
contest in which the award went to
Mrs. Rudolph Schenk and Mrs. Charles
Stattler. The regular meeting will be
held at the home of Mrs. R. Schenk,
April 22.

A delightful party was given Thurs-
day evening at the home of Mr. and
Mrs. Charles Martin, 724 West Main
street in honor of their daughter Char-
lotte's twelfth birthday anniversary.
The evening was spent in games and
music. Delightful refreshments were
served to the following guests: Miss
Pauline Collins, Wilma Edmunds, Juan-
ita Stover, Ruth Maupath, Grace Stauff-
fer, Louise Ralston, Charlotte Martin,
Elizabeth Applegate, Lucille Atherton,
Laura Dreier, Edna Fiedler, Ruth Lin-
ton and Mary Margaret Martin.

PERSONAL

Frank L. Beggs went to New York
last night.

CHEEK PLUME IS NEW ORNAMENTATION FOR MILADY'S ELABORATE COIFFURE

The ultra-fashionable woman of
today has turned to the savage for
new ideas in adornment. Some of
the unappreciative men have said in
a burst of uncomplimentary criti-
cism that the nose ring is the only
thing missing to make the modern
woman an exact replica of her sav-
age sister. I would not go quite that
far although the modern ballroom
does show many accessories taken
from the dress of "wild" women.
There are bracelets about the ankles
and arms, dresses that are scarcely
more than the girdle of the savage,
brilliantly colored jewelry that are
scarcely more than the girdle of the

savage, brilliantly colored jewelry
dangling around the neck and body
and now the ostrich plume headpiece
comes as the latest and perhaps most
bizarre fad. From the back of the
milady's fashionable head there now
rises a series of uncured ostrich
plumes in various designs or else one
long plume, jeweled or plain, rises
from the forehead, or two drop over
each ear. When they drop over the
ear or cheek they are described as
"beckoning," but at the same time
keeping an ardent man at a dis-
tance by their sweep. This fad has
found great favor in Paris and is
being adopted by the ultra fashion-
able in this country.

OBITUARY

Baby Daughter Dies

Burial of the infant daughter of Mr.
and Mrs. Timothy Sullivan of Second
street was made Thursday in Cedar
Hill cemetery. The child died at birth.

Infant's Death

The one day old infant son of Mr.
and Mrs. Joseph Kanes of 229 Summer
street was buried in Mt. Calvary cem-
etery this morning at 10 o'clock.

Mrs. Charles Cosmoch

The funeral of Mrs. Charles Cosmoch,
who died Wednesday, was held this
afternoon at 2:30 in the Fairmont
church and burial was in Fairmont
cemetery.

Mrs. Mary Thomas

Mrs. Mary Thomas, the widow of the late Robert J.
Thomas, passed away at her home north
of Pataskala on Monday afternoon,
April 8th, aged 84 years.

Mrs. Thomas had been confined to
her home for a long time, and her con-
dition growing daily more serious.
She leaves one daughter, Mrs. Kittle
Evans of Newark and three sons, Fred
N. Thomas, of Westerville, C. B. Bernet
Thomas of Long Branch, Calif., and
Ellis Thomas of near Alexandria.

The funeral was held from the home
at 2 p.m. Wednesday and interment

made in the Pataskala cemetery in
charge of the Vinton D. Morrow Co.

Otto L. Dugan

Funeral services for Otto L. Dugan,
who died Thursday morning, will be
held Sunday at 11 o'clock (sun time) in
the Fairburg Baptist church, and
burial will be made in the adjoining
cemetery.

The tag day receipts collected last
Saturday on the streets by the girls
of the Twentieth Century club, assist-
ed by the high school girls, amounted
to \$652, which was a little less than
last year. There were about 100 girls
on the streets all day, and they worked
with great enthusiasm. More tags
were sold than ever before, but the con-
tributions were smaller.

Many members of the first chapter
were home from boarding school and
also helped in the sale.

Luncheon was served throughout the
day at the Masonic Temple by the wom-
en of the hospital board to the work-
ers. The club may use part of the money
collected to apply to a fund to purchase
an X-ray machine for use at the City
Hospital and for improvements at the
nurses' home.

THE COURTS

Charges Desertion.
Chloe M. Cooperdier filed suit for
divorce today in common pleas court
against Waldo Cooperdier. The peti-
tion relates that the couple were mar-
ried November 25, 1914, and that they
have one child; that Mrs. Cooperdier
was deserted in March, 1918, and has
not been living with Mr. Cooperdier
since; that in March and at other times
since the defendant assaulted, insulted
and swore at the plaintiff. Divorce
custody of child and alimony are asked
of the court.

Marriage Licenses.
Ira F. Fulk, farmer, Franklin town-
ship, and Miss Bessie M. Avery, do-
mestic, Licking township, Rev. Corwin
Dove named to officiate.

Bailly Given Verdict.
The jurors returned a verdict for the
plaintiff for the sum of \$226 in the case
of Harry A. Bailly vs. A. A. Stassel, a
suit for work and labor.

Keeley Gets \$879 Verdict.
J. D. Keeley vs. August Sleses: A
suit for damages brought by Keeley vs.
Sleses, plaintiff claiming that he leased
a house to Sleses, and that during the
occupancy by Sleses damages were done
to the premises by Sleses. The jurors
found for plaintiff for the sum of
\$879.40.

Seek Custody of Children.
In common pleas court on Friday the
court heard the claims of the parties
in the habeas corpus proceeding
brought to determine the proper cus-
todian of Kenneth Preiner and Dorothy
Freder, minors. The father claims the
custody of the children as against their
grandmother, Anna Kroman, to whom
they had been awarded by the Probate
Court.

Receiver Seeks Advice.
A report and application was filed in
common pleas court today in the case
of Paul A. Reymann vs. the Jewett Car
company. W. C. Miller as receiver for
the company asked the advice of the
court in the matter of the payment of
claims against the company.

Receiver's Answer Filed.
An additional answer of the receiver
to the amended answer and cross peti-
tion of the Franklin National bank was
filed today. The answer seeks to have
monies paid the bank returned to the
general fund of the receiver.

Commissioners Hear Case.
The county commissioners held a ditch
hearing on the German ditch west of
Etna, Etna township at the court house
this morning. The hearing was ad-
journed to the hope that the parties to
the argument would settle their dis-
cussions without further hearing.

NOTHING WRONG EXCEPT "RUN DOWN"

Heart All Right—Lungs All Right But
Blood Weak

NO ENERGY OR ENTHUSIASM

That's When You Need Pepto-Mangan
—The Red Blood Builder

When you feel weak and almost sick, see a doctor and find out what is wrong. It may be a serious illness. But in many cases the doctor finds nothing really wrong except a general run-down condition due to the need of stronger, richer blood.

For over thirty years physicians have recommended Gude's Pepto-Mangan to restore weakened blood to its normal healthy state.

Pepto-Mangan imparts to the blood the elements it needs to build up vigorous men and women. Children whose blood is impoverished become listless and pale and fall to romp. Pepto-Mangan creates a supply of nourishing red blood that makes the cheeks glow, the eyes sparkle and brings back the energy for play or studies.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities.

There is but one genuine Pepto-Mangan and that is "Gude's." Ask your druggist for "Gude's" and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan.—Advertisement.

You may need a little sulphur

To Help Eliminate and Regulate the
Functions of the Body.

Sulphurb Tablets a Boon to Woman-
kind Who Suffer.

Not only a boon to womankind but to men, women, boys and girls, Sulphurb Tablets have proven to be the simple, mild but most effective, in the overcoming of conditions primarily due to constipation and inactive kidneys. Women suffer periodically, and at such times suffer in silence, when if they could only know that the sulphur, cream and tartar and herb extracts in Sulphurb Tablets would surely bring relief, there would be millions made happy and free from headaches, backaches, languor, constipation, pimples, eruptions, etc., due to accumulated poisons in the body.

Mrs. E. Phelan, 189 Cambridge St., Boston, writes: "In reading your good advice to others I have found relief. I was troubled with backaches, headaches and dizzy spells so I started to take your Sulphurb Tablets which gave me great relief. May your good work go on, etc."

Sulphurb Tablets are very, very good and sold by all druggists, at 60c per tube.—Advt.

WAR VETERAN GIVES MESSAGE OF GOOD CHEER

Broken in Health During the Rebellion
He at Last Finds Relief
in Trutona.

Marietta, O., April 8.—"I can truthfully say that Trutona is the best medicine I have ever taken in my life, and I'm positive I will live many years longer now, because of the benefits this true tonic has given me. I simply feel like a new man, in fact a whole lot younger." Such was the enthusiastic curative praise given Trutona a few days ago by S. H. Nesse, 79 years old, and well-known Marietta real estate agent who lives at 814 Front street.

"I am a veteran of the civil war," Mr. Nesse says, and it was while in the service that I began to have trouble with my liver and kidneys. I've suffered more or less from this malady ever since, with terrible pains in my back and sides. I also had severe aches in my forehead and the back of my neck. What little food I was able to eat on account of a very poor appetite, would not digest properly, and which caused nasty spells of dizziness. I was usually constipated and was compelled to take a laxative most all of the time.

"Now I want to say to you, sir, since taking Trutona, I'm convinced that I will live past the four-score and ten mark, and I want the world to know what this wonderful medicine has done for me. All of the pains in my body have left me, and I can see much clearer than before. My kidneys don't give me the trouble they did before I began taking Trutona, and I simply can't get enough to eat at meal times. My constipation has left me, and at night I sleep like an infant. Yes, sir, Trutona has made a different man out of me and I can truthfully say that it is the best medicine I have ever taken in my whole life. I want the people of not only Marietta, but everywhere to know the good Trutona has done for a veteran like myself."

Trutona is now being introduced and explained in Newark at W. A. Erman's Drug Store.—Advt.

Washing Won't Rid Head Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do its work.

RELATES HOW HE GAINED 10 POUNDS IN TWO WEEKS

Lancaster Man Had Suffered from Stomach
Trouble so that Nothing Agreed
With Him—Appetite Failed
and Couldn't Sleep.

KIDNEYS WERE WEAK.

Declares After Taking Drecto Two
Weeks, His Appetite Returned
Stomach Improved, Liver
Got Active and Pains
Left His Body.

"The change in me is remarkable since I've been taking Drecto. I feel like a different person and my friends remark on how much better I'm looking," writes Mr. O. C. Duckwall, 705 Pierce Ave., of Lancaster, O. Mr. Duckwall is well known in the Millin Engineering Works, where he is employed.

"My stomach was in such shape that my food did not digest but turned to gas and bloated me up. Seemed I got no strength from what I ate and I began to get thin and lost weight."

"My kidneys also got out of order and I'd have continual pains in my back, which hurt me to bend over or stoop about. I also had a tight feeling in my chest. The first bottle of Drecto helped me so I got the second one and after I had been taking this medicine two weeks, I had actually gained ten pounds. My food was digesting, with no gas forming, but seemed to give me strength. The pains over my kidneys passed away—also the pains in my chest. Drecto certainly deserves all the praise being given it."

When a person is sick, they certainly have to take medicine to get well, and Drecto is proving every day that it aids a disordered stomach, relieves gastritis, strengthens the kidneys, cleans out the liver, overcomes constipation and takes the pain out of rheumatic joints. All good druggists now sell Drecto and it is highly recommended in Newark by Evans' Cut-Rate Drug Store.—Advt.

YOUR STOMACH TROUBLE EASY TO RELIEVE

Husband Had Stomach and Nerve
Trouble. Suffered Several
Years.

"My husband was all rundown from stomach trouble which had bothered him for a number of years. He had a very poor appetite and things would sour and form gas on his stomach and cause him to be nervous for hours after a meal. He could not rest a bit good at night."

"I was alarmed about him. He knew he must get something to do, and since he took Earle's Hypo-Cod he had regained his appetite and eats great big hearty meals. He eats anything he wants. Also, rests so much better nights and is not the least bit nervous. It helped him so much he says he feels better than he has in years. Several neighbors of mine are using and praising this same 'tonic.' I declared Mrs. John Complan, 148 Guilford ave., Columbus, Ohio.

Any woman or man who permits his or her stomach to remain in a weakened disordered condition week after week is mighty likely to fall victim to even worse complaints and the vitality is so low they are much more apt to become sick than if they had paid a little attention to their condition and strengthened themselves with a tonic.

This season of the year one cannot be too careful. Take a mental inventory of your health. If you are not feeling in perfect health, get a bottle of Earle's Hypo-Cod. It is a wonderful digestive, alternative, reconstructive tonic. Easy to take, nice to eat, and sold by thousands and has the formula on every bottle. Price \$1.25, plus 5c war tax.

Earle's Hypo-Cod is sold here by all good druggists and the leading druggists in all nearby towns.

NEW ILLS OF THE FLESH HERE WITH THE SPRING TIME

Troublesome Seeds Sown by the "Flu"
as Well as by Winter.

It is needless to argue that the body reaches winter's end with lowered strength. Everybody knows that with this coming of the season's change the body needs a "spring tonic." Those who've been at grips with influenza know further that in their cases more toning and building up will be needed this month and the next than ever before. It steadies and strengthens the nerves, whets the appetite, aids digestion, restores restful sleep, banishes sick and nervous headache and other aches and builds up the run-down systems. In doing this it becomes the best of spring tonics. No need to dwell on this, either. Make the test yourself—buy a bottle of Nerv-Worth and if its contents do not tone and build you up in the way described the druggist will hand you your dollar back.

Ask for Nerv-Worth Laxative Tablets, 25c a box. Taken in connection with Nerv-Worth, the liquid, they do a great work. Especially useful in thoroughly cleansing the bowels for those whose habits of constipation do not readily yield to the laxative properties of Nerv-Worth, the liquid.

T. J. Evans sells Nerv-Worth in Newark.

**WEAKNESS
RELIEVED BY
"BALNORTH"**
Many men and women gain no strength. The least exertion tires them. Dull aches, pains like rheumatism, depression or "blues" comes easily. Ambition and energy are always at low ebb. What is the cause? The cause may vary—but if the kidneys and bladder are not doing their work perfectly—you can make a bet—that's where the trouble lies. This lady suffered 12 years. Mrs. E. Klipp, 614 W. 12th St., St. Paul, Minn., writes: "Your Balnworth Kidney Tablets certainly have done wonders for me. I have been ailing for 12 years with Kidney and Bladder weakness, but feel like a NEW WOMAN NOW." All druggists sell them.—Advt.

PATRON SAINT OF HATTERS

Why St. Clement Has Long Been Ac-
corded Recognition by Makers of
Head Coverings.

St. Clement is known as the patron saint of hatters, because of his discovery for the making of a compact fabric out of wool without pressure or weaving. The story goes that this devout priest, while on a journey, became footsore and tired, and, removing his sandals, sought rest by the roadside.

St. Clement was soon disturbed by the bleating of lambs. Looking up, he beheld a fox that had just seized one of the helpless young sheep. He cleared a hedge just in time to destroy the fox and rescue the lamb, in the process of which act he observed loose wool, which he gathered and examined.

The priest was struck by the sudden inspiration that here was relief for his lacerated feet. Binding the yielding wool on his wounds, he was able to continue his journey. On reaching his destination St. Clement removed the sandals from his feet, discovering instead of the fine soft wool a piece of unfinished cloth, seemingly so firm and thick that he couldn't pull it apart. He called the matted material "felt."

This accidental knowledge of the priest caused the basic principle that underlies the men's hat industry. November 23 has been named St. Clement's day and is a red-letter day for the hat manufacturers of many countries.

WAS THE FIRST CINDERELLA

Egyptian Maiden Said to Have Been
The Original of the Old and
Popular Story.

About 700 years B. C., there is said to have lived a maiden, who, though not called "Cinderella," was undoubtedly the person represented in the popular fairy tale, says the Montreal Herald. It was during the rulings of one of the twelve Egyptian kings that this beautiful eastern girl, Rhodope by name, came under the notice of the then known world. Rhodope had remarkably small feet. One day, while bathing in a river near her home, an eagle is said to have swooped down and, playing the part of the fairy godmother, snatched up one of her sandals which was on the bank. Carrying the little shoe off in his beak the bird is reported to have dropped it immediately in front of the king, and, naturally, the little sandal soon attracted royal attention. Struck by its size so small, and the daintiness, too, the king vowed he would find out the charming possessor. Messengers were dispatched and the country was scoured for the foot that the shoe would fit. At length Rhodope was discovered and the shoe placed on her tiny foot. After a triumphal conveyance to the king's palace she was made queen to her royal lover, "King Psammetichus of Memphis."

Speech Should Be Worth While.

And when you have something to say it's worth saying well. It's not just that you say words. You must say them so they attract and convince. We all use pretty much the same words but they sound so differently from the mouths of different people. There are books galore that are musty with unuse because what they say is poorly said. If the thought had been matured into small compass and told in telling diction they should be popular works. And it's the same with speech. Some men have good ideas, but they take so long to tell them that people get tired. Sometimes they even get weary before the man begins to speak. The world wants what you know, but it isn't willing to waste time listening to mere words.

"Straight" Talk Best.

When your words count you don't need to use so many of them. It's a pleasure for some people to talk. Other men talk under protest and become the best speakers because they seek the shortest way to adequate expression. These men always get a hearing because people know they will get the facts without orations. And this is as it should be. Every man should be able to express himself. He can learn if he is willing to make the effort. It may scare him half to death at first, but he will soon find pleasure in seeing his ideas take action in others. Whether you are a ready talker or not you will profit much by making your talk count.

Prismatic Colors.

It is commonly said that there are seven primary colors in the rainbow, namely, red, orange, yellow, green, blue, indigo and violet. But these colors mix, and the so-called Fraunhofer lines name ten, as red, red-orange, orange-yellow, yellow, green-yellow, and yellow-green. Blue-green, sky-blue, blue and blue-violet and violet. The Indians did not have names for all the subdivisions of color. Their name for blue is ochako; for green, okchamali; red is called humma, and yellow, lakna. These are names in the Choctaw tongue.

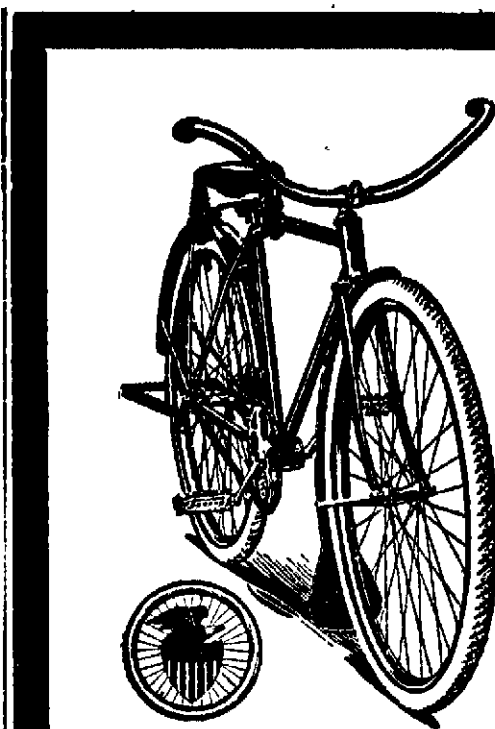

A Great Man.

"Yep," said the Old Timer, "Senator Fluhdah gets by on his pomposity."

"Huh?"

"He's got so much of it that people just naturally feel compelled to burrah at his platitudes and guffaw over his stale jokes."—Louisville Courier-Journal.

The pessimist's idea of heaven is a place that is paved with gold bricks.

WEARS A SMILE ALL THE WHILE SINCE TAKING REDEX

Well-Known Clerk of Arcade Hotel Tells of His Pleasant
Experience With New Herbal Remedy.

The stomach is primarily responsible for most cases of poor health.

The average man or woman can not be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature which are organic and are not traceable to the stomach, but even fevers can, in most cases, be traced to something taken into the stomach. All of this half-sick, nervous exhaustion that is now so common, is caused by stomachic conditions and it is because Redex will and does regulate the stomach that it is meeting with such great success, not only in Newark but throughout the country.

To sum the matter up, a sound digestive apparatus that is doing its full duty, getting every particle of nourishment out of all food by transferring it to the bowels in a perfectly digested state—this, above all else, brings health.

Wm. H. Denninger, the popular and genial assistant manager of the Arcade Hotel, Newark, familiarly known as "Billy" by every knight of the grip who comes to this city by nearly every one in town, is another staunch advocate of Redex, the new herbal remedy now being demonstrated at Erman's Arcade Drug Store.

He says: "Some few weeks ago, I had

a severe attack of the 'flu' which set me on my back for about ten days. After I was able to get up I was as weak as a kitten, had scarcely any appetite at all and felt about 'all in.' I started taking Redex, which I saw in the local papers and must say it has done me the world of good. I now have a splendid appetite and enjoy my food which agrees with me. I am as strong and vigorous as ever and am getting back to my old form. Redex is a fine medicine to build up a weak, run-down person suffering from the after effects of the 'flu,' judging from what it did for me, and I can highly recommend it.

There are thousands of others that will agree with Mr. Denninger in his opinion of Redex. As a general tonic and builder for the whole system this vegetable remedy is unequalled. If you suffer from ailment of the stomach, liver or kidneys, no matter how long standing, Redex will surely help you as it has helped others.

Redex is on sale at Erman's Arcade Drug Store, Evans, Mykranitz, and all leading druggists.

Redex can also be had in Granville at Ullman's Drug Store; Alexandria, C. M. Gilmore; Hebron Drug Store, Hebron; Richardson's Drug Store, Utica; Howard's Drug Store, Johnstown.

LEGION POST NOW HAS 375 MEMBERS

Membership Report At
Thursday's Meeting Indi-
cates Steady Growth of
War Veterans' Organi-
zation.

The American Legion met in regular business session last night with only a small percentage of members present. The regular business of the post was transacted. The treasurer, John Sachs, reported that 35 new members were secured last week, making a total of 375 members in the post at the present time. He stated that the showing was satisfactory and that men were signing applications every day.

Stewart Sedgwick, who is associated with his father, Dr. H. Sedgwick, the local representative of the government in free dental work to ex-service men explained the steps necessary to secure this work. A claim number is necessary and this can be secured by filling out blanks in Dr. Sedgwick's office. Any teeth extracted while in service will be replaced and fillings that are defective will be renewed. Dr. Sedgwick also stated that Dr. H. Sedgwick, of this city, was the medical representative of the government in the same kind of service.

Major C. W. Miller, gave the Legion members present a talk on the battery that he is trying to form here. His offices are in the Old Homestead and he is meeting with success in his efforts. To date he has secured ten men and the great number of inquiries that come in indicate that he will be successful. Major Miller was particularly glad that the first man he signed up for the battery service was an ex-service man from the 42nd division.

After the meeting adjourned the entertainment committee surprised the members by announcing Miss Martha Flurschultz, Miss Bess Hagmeier and Mr. Harrison Palmer. This trio gave some very pleasing music.

BOWSER GETS TWO FALLS IN BOUT WITH GARDNER

Pinky Gardner came up to expectations last night in his match with Paul Bowser. Bowser won by getting the last two falls. Both men were in fine condition and gave the crowd a good match.

Gardner got the first fall in 20 minutes and 30 seconds with a strange combination of holds never seen here before. He clamped an armlock and a head and leg scissors on Bowser and the fall went to Pinky.

Bowser came back and threw Gardner with a headstand in 19 minutes and succeeded in getting the third fall in 15 1/2 with a flying mare.

Mike Yokel returned with Bowser last night. Bowser, in Gallagher, sprained his shoulder Wednesday and could not appear against Joe Willis as scheduled. Yokel agreed to go on with Willis best two out of three in 30 minutes and the rest of the time no falls were secured.

It was announced that two weeks from last night Ben Stefanski of Detroit, Mich. would appear against Bowser in a best two out of three fall match with no time limit.

HANOVER METHODIST.
The pastor, the Rev. J. Emory Walter will begin the service of morning worship promptly at 9:15 o'clock. After a brief period of worship with a short sermon by the pastor the congregation will gather in classes for Bible Study. The period for Bible Study will begin promptly at 10:00 o'clock. Adult members of the school will please bring Bibles. In the evening at 7:30 o'clock the Rev. E. F. McElfresh D.D., Supt. of the Zanesville District will preach and administer the Sacrament of the Lord's Supper. Every member of the church should be at this service. Strangers are always most cordially welcomed.

As to Brevity.
Of course brevity can be carried too far, may be awkward and inarticulate and incomplete. We may be brief and tedious at the same time. Some one brought Voltaire, the master of brevity, an epigram in two lines. "Ah!" said Voltaire. "Very good, but it drags in spots." The old comic dramatist said of a dull oak: "The laconic ass makes brevity ridiculous." We do not want to make brevity ridiculous or let it make us so.

Nevertheless, we should all do well to cultivate and practice brevity, and we may be sure that we should be much more listened to if we spoke less.—Youth's Companion.

Incredulous Lady.
"Why do you sit at a ouija board when you might be enjoying interesting conversation? You can't believe a thing the toy says."
"Well," replied Miss Cayenne, "I mightn't believe the conversation, either."

Queer Wedding Presents.
The following are a few of the many curious wedding presents that have been received by those about to enter the bonds of matrimony.

A well-known author received on his marriage, from a rival man of letters, a scrapbook containing a collection of all the adverse criticisms his works had ever received; while a popular artist was on similar occasion presented with a set of elementary works upon self-instruction in drawing and painting.

Unusually venacious was the gift received from his neighbors by an infirm octogenarian who had married a pleasure-loving woman more than fifty years his junior. It took the form of a large brass cage, "intended"—so ran the accompanying note—"to restrain the wayward flight of a giddy young wife who had married a decrepit old fool for his money."

You never can tell. Even indulging in a cold shower every morning is no indication that you won't find yourself in hot water before the day is over.

"Just see how your fingers are stained from eating the spaghetti," demanded Reform. "That," replied Experience, "but a stain on the finger is worth two on the conscience."

DIED WITH LOVED BROTHER

Pretty Eastern Legend Concerning the Affection and Loyalty Displayed by Burmese Queen.

A legend concerning Mount Popa, dealing with the time when the Burmese court flourished, tells of a blacksmith of prodigious strength named Mahagiri. He possessed a sister of great beauty who was commanded by the king of Tagaung to be brought before him, shortly afterward being chosen as the principal queen. The king's infatuation brought jealousy among the lesser queens, and they instituted a plot to destroy her.

As a means of destroying the girl's influence over the king, her brother was charged with being a traitor, and the king, in his terror, ordered the blacksmith to be brought to justice and burned. The unhappy sister used all her allurements to save her brother, but failed, finally asking that she might be present at the burning. During the ceremony, before a band could be outstretched to save her, she jumped into the fire, and was burned with her brother.

A few days after the burning the spirits of the two victims were reported in the form of two "nats." In recognition of this, King Kyan-yit-Tha later issued an edict that all his subjects should honor the spirits by suspending a coconut shell in their houses, this custom still being observed by every Burman in the country.

WESTERN SPIRIT IN CHINA

Head of University in the Great Yellow Territory Has Proof of Spread of Occidental Ideas.

"He had been pretty well all over the world," said the professor, "and when I asked him what country had impressed him most, he said at once, China. And when I asked him what in China had impressed him most, he said at once, the West China Union university. The professor's remarks were made to the Daily News, London, and he followed them up with a delightful story of the way in which Chinese eminences showed their appreciation of this blossom of Western enterprise, the university of which the professor happens to be the president. Some dozen years ago he was feeling for his life 1,500 miles down the Yangtze to save his head. He was a "foreign devil," and no university had been started. Seven or eight years later, the military governor of Szechuan sent him a beautifully inscribed statement of his opinion of the university, and a gift of \$3,000. The professor was on his way home via Peking. In the Chinese capital he had an interview with the president of the Chinese republic, then Yuan Shih-kai, who also gave him a declaration of approval and \$4,000 as a personal gift to the university.

The First Congress.

The first congress was supposed to meet on March 4, 1789, and it is a curious fact that there was not a quorum of either house present for a month thereafter. Only eight senators were present on March 4, and they adjourned from day to day until April 6, when a quorum was present. Only 13 members of the house assembled on March 4, and a quorum was not present until April 1. The Constitution of the United States took effect in the following states: Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina, New Hampshire, Virginia and New York, on March 4, 1789.

Dream That Means Death.

A peculiar dream is that which has visited a certain Irish family for generations, invariably before a death or some big change. They call it their kissing lady dream. The person who experiences it dreams that they are sitting in a very old-fashioned room before a blazing wood fire, when suddenly the door behind them opens and a beautiful girl in green, tight-fitting garments enters, and, stealing softly behind them, draws their head gently back and kisses them full on the lips. As she does so there is always the clanging of steel on a stone staircase, the hurried tramp of armed men, and they awake trembling.

Memoirs for Grams.

Scientific papers are getting to use the metric system of weights and measures more and more, and it has become almost necessary for every one to be able to convert such terms as grams into ounces at once. It is not, however, easy to remember that there are 28.35 grams in an ounce. However, if one remembers the sentence, "It converts one ounce," the figures will instantly recur to the mind. For the number of letters in each word gives 28-35.

Memoirs for other terms of the metric system are needed.

Status of the Greek Slave.

This famous statue was the work of Hiram Powers (1805-1873), the American sculptor, completed in 1842. Five replicas are said to have been made by the artist, the first of which was sold to Captain Grant and taken to England, and is now in the gallery of the duke of Cleveland. The second copy is now in the Orlean Art gallery at Washington; the third is in possession of the earl of Dudley; the fourth was purchased by A. T. Stewart, the New York merchant, and the fifth became the property of Mrs. M. W. Stoughton.

DOES YOUR BLOOD NEED IRON?

How to Make the Test That Tells
A pale face, a nervous, irritable disposition, a lack of strength and endurance—these are the warning signals that Nature gives when your blood is getting thin, pale, watery and starving for iron. If you are not sure of your condition, go to your doctor and have him take your count, or else make the following test yourself: See how long you can work or how far you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. All good druggists sell Nuxated Iron, on the distinct understanding that if you are not satisfied your money will be refunded. 4-7-9

Ohio population figures released by the census bureau show: Cambridge, 12,104, increase 15.7 per cent; Hamilton, 79,675, increase 12.5 per cent; Lima, 41,366, increase 35.4 per cent; Lorain, 37,235, increase 29.1 per cent; Steubenville, 23,308, increase 27.3 per cent; Warren, 27,699, increase 14.1 per cent; Zanesville, 23,587, increase 5.5 per cent. Newark's population in 1910 was 25,404. What will the 1920 census figures show?

Merle Martin in Egypt.
Word was received by John Spencer yesterday from Merle Martin, a Newark boy, who is on a trip around the world as a radio officer. The card was from Port Said, Egypt, and said that he would return home in May, but did not expect to get to Newark until August.

Birth Announcement.
Mr. and Mrs. A. C. Taylor announce the birth of a 9½ pound daughter, Thursday. Mr. Taylor formerly lived in this city.

Proctors Are Reported.
Proctors were reported at 348 Anderson street last night by Frank Reynolds. The police investigated, but there were no traces as to the identity of the people.

Eleventh Street Property.
The Frances Thurst property in Eleventh street has been sold to H. S. Shaffer, the deal being concluded by Dwyer & Hughes.

James Passman and Red Snyder went to Columbus last night in Passman's Ford to attend the electrical show. When they were ready to start home, the Ford was missing and could not be

located. Passman stayed in Columbus last night and notified the police of the theft. The car has not been recovered yet.

Condition Is Improved.
Mrs. Jennie Fink, residing in apartments at Eleventh and West Main streets was taken to the Newark Sanitarium late last night suffering from ether poisoning. Her condition was regarded as serious last night, but today she is reported much better.

Flinds Lost Cow.
A cow belonging to the Davis family in Canal street strayed away this morning and the loss was reported to the police, who soon got a report on a cow wandering around near Doneff's bakery on South Second street. Davis recovered his cow.

Auto Crank Found.
The starting crank lost by the West Newark fire company a few days ago and advertised in a local in the Advocate, was returned by Dr. J. P. Shat, who found it on the street.

The combination range and other articles donated by Newark merchants in connection with the St. Patrick's day supper given for the benefit of Mt. Calvary cemetery, will be awarded Wednesday, April 14, at 8 o'clock in the evening in the Knights of Columbus hall in West Main street. Purchasers of tickets are asked to be there if possible. Beaconsmy Bros., Linehan Bros., P. McDonnell and J. P. Murphy are the only places where books can be purchased now.

Recovering From Operation.
Miss Nora Johns, who underwent an operation at the City Hospital for the removal of tonsils and adenoids, has been removed to her home in Wilson street. She is settling along nicely.

Patrol Will Meet.
There will be patrol meetings of Troop 4, Boy Scouts, at the homes of the various patrol leaders this evening.

Shipley No. 5, and 2120 feet on the W. W. Stump 4. The company is building a rig on the L. S. Romine No. 7 and has completed a rig on the J. F. Stitt No. 2.

WELL DOWN 2200 FEET.
In Muskingum county, Jackson township, the Ohio Cities Gas company is down 2200 feet on the Samuel Hoffman No. 1 and 2365 feet on the Mary Fleming No. 2 with a rig on Fleming No. 3.

What Really Keeps Time.
As a measure of time the pendulum ranks today as the most perfect of our instruments, says the Scientific American. It is the part of a clock that keeps time. All the rest of the mechanism is simply for the purpose of keeping up its vibration or to point on a dial the number of vibrations it has made. It swings back and forth in a complete arc 30 times each minute, but allows the escape-wheel to move a cog at each vibration, thus checking off on the dial, by means of the second hand, 30 seconds of time. In a similar way, minutes and hours are recorded, and by a like process a watch is guided.

Tranquility Overdone.
"So you slept for twenty years?" "Yes," replied Rip Van Winkle; "and I'm compelled to admit that when a man tries to conquer 'unrest' there is danger of his going too far."

Overheard on the roof course—"So near and yet so far," sighed the Eighteenth Amendment to the Nineteenth State.

NEWARK HEADS LIST IN AIDING PEN PRISONERS

George M. Fenberg, is in receipt of another appreciative and cordial letter from the Ohio State Penitentiary, whose prisoners he has been supplying with magazines for the past six weeks. Mr. Fenberg became interested in the chance of helping out in this way through a letter from T. O. Reed, chaplain at the penitentiary and interested in the Boy Scouts, through Scout Executive Brown, in the work. Two shipments of magazines were sent over. The second shipment, sent in the past week, brought this reply:

"Your last contribution of magazines arrived. I must say that you have sent us the largest and finest lots received from any source."

"In behalf of the prisoners I thank

you and your friends for their generosity and assure you it is highly appreciated by inmates, officials and everybody connected with the institution."

U. B. CHURCHES PLAN DRIVE FOR BIG FUND

The U. B. churches of Licking county are organizing to cooperate in the Interchurch World Movement determined to go "Over the top" at an early date. The sum total to be subscribed for two years is \$10,000. Of this sum the East Main street church will subscribe \$8000, through its membership and "friendly citizens" who will designate their gifts in its behalf. There are four resident pastors, Rev. P. E. Wright, Rev. W. F. Harbert, Rev. Mr. Harter and E. M. Larson and ten organized churches. These pastors will be supported by a corps of laymen. Six teams led by Messrs. Conrad, Miller, Priest and Mrs. Copper, Mrs. Nelberger and Mrs. McGlade will train the workers and put on the campaign at

East Main. Pleasant View will organize under the leadership of J. F. Nichols.

ARRANGES FOR TOUR OF AUTO TRUCKS

J. W. Samsey and W. L. Morris of Columbus are in the city today making arrangements for the truck tour of the Columbus Auto Trades Association which will include Newark. About twenty-five trucks are expected to participate in the tour, including two army trucks one of which is a recruiting outfit. A number of the towns in the state will be visited and Newark is on the itinerary for April 21.

Spring Like Colors and Cloths In Misses and Children's Coats

The new coats are certainly an added reason for being glad that spring is coming, so luxuriously soft are the new materials, and so handsome the shades in which they come.

Little "Miss Two To Ten" can be dressed just as stylishly as her big sister. For her selection are nobby little styles in the desired spring colors. Then to complete her spring outfit, she should have—

A Pretty Summer Hat

Every little girl wants a becoming little hat—it may be a pretty white hat, made of some sheer wash material, trimmed with tiny flowers, or dainty bows made of delicate shades of ribbon and when it comes to selecting a straw hat, you will find a most varied assortment. White straws trimmed in ribbons—some with long streamers—pretty little colored straws in navy, tan, buff, rose, black—some with tailored ribbon bands—others floral trimmings.

The Young Miss

In her teens, has been remembered, along with her little sister. If she is interested in a new spring coat, she can have her choice of a long coat, or one of the three-quarter length, which comes as a pleasant change after the heavy coats of the past winter.

Delightful New Frocks

for "Miss Twelve to Eighteen"—Taffetas, tricolettes, georgettes are designed in pretty models suitable for her spring wear. And it's really none too soon to make a selection of dainty voiles and organdies for summer wear. By choosing now, you have a larger assortment of crisp new styles to choose from, all of which show the charm of youth.
